# Weekend Fires Plague Antioch

by CHRIS SPECHT

The Antioch Fire Dept. had a busy weekend between March 22-24 with two major house fires on March 22 and March 24, and two grass fires on March 23.

At 10:40 p.m. firemen responded to a fire at an abandoned house on Grass Lake Rd. near the intersection of Grass Lake Rd. and Rt. 59. Although the house was completely engulfed in flames upon the department's arrival, the fire fighters were able to extinguish the blaze within one hour.

According to Wayne Parthun, of the Antioch Fire Dept., the fire was of a "suspicious origin," and the department is checking on information received at the scene of the fire. The information concerns some people who were seen in the area prior to the fire.

After a request by Antioch Fire Chief Todd

Maplethorpe, the Lake County Health Dept. had condemned the building. The house had been abandoned for about two years before the fire.

The building has also been posted by the Fire Prevention Bureau who are warning people to stay away from the building. The bureau is also asking for information concerning the origin of the fire. Anyone with information should contact the Antioch Fire Dept.

On March 24, at 2:41 a.m., the department responded to a house fire on 43332 Park Ln. The house, which is on the north shore of Channel Lake, burned to the ground before firefighters could quell the blaze.

The department was notified by a neighbor who, in turn, was notified by someone who was passing by the home.

The house was the weekend home of two priests from Des Plaines, The Rev. Charles Rubey, and The Rev. Robert McLaughlin, were not in the house at the time of the fire.

Parthun said that by examining the point of origin of the fire, the department has determined that the fire may have been started by the electric base board heating in the two bedroom home.

## Celebrate Easter

No Easter parade would be complete without an appearance by the Easter Bunny himself who took time out from his busy schedule to be a part of Antioch's Easter Parade on March 22. Area youngsters can visit the Easter Bunny in the Easter Hut under the water tower on Toft St. from 4-7 p.m. on weekdays and all day on Saturday.

## Chamber Schedules Boat Show For June

by CHRIS SPECHT

The Antioch Chamber of Commerce and Industry has already begun planning the second annual R.V., Boat, and Auto show.

At a March 20 meeting, chamber members decided to hold the show on June 13, 14, and 15, in the north lot of Antioch Community High School.

"We're optimistic," said Raymond Scarpelli Jr. about the projected turn out. Last year's show which attracted about 10,000 people was held during Memorial Day weekend. Scarpelli admitted that attendance may have been higher if the event would have been scheduled on a different weekend.

"Last year the show may have not been on the best weekend because a lot of people had already made plans to go boating or visit relatives," explained Scarpelli.

This year the chamber hopes that the different weekend changes this situation in order for the show to attract about 15,000-20,000 visitors.

The chamber hopes to feature live entertainment at this year's show and Scarpelli said that the P.M. and L. theater has already

agreed to be a part of the festivities.

"We want to get every part of the community involved in this project," said Scarpelli. Scarpelli said that the chamber will make an effort to enlist the help of every civic group in Antioch in order to make this year's show a true community event.

A program will be printed which will include a schedule of the show's events. Scarpelli said that June 15, which falls on a Sunday, will be the event's biggest day. Last year the show started on a Thursday and ended on a Saturday.

Scarpelli said that the show will be a golden opportunity for local merchants to display their wares.

"The show gives everybody a chance to display what they have to sell, and for the visitors to view it," said Scarpelli, adding that he is looking forward to a "fun weekend" in June.

Final registration for the event will be held at 2 p.m. on April 3 in the mayor's office at the village hall.

## Area Residents Open Hearts, Wallets

by CHRIS SPECHT

Michael Warren and Co. of Century 21 in Antioch raised \$9300 for Easter Seals on March 16. This may put the local business as high as fifth in the ranking among Century 21 groups nationwide in terms of money raised.

Century 21 is the largest corporate sponsor for the Easter Seals program. Last year, the 7000 Century 21 offices raised about \$2 million for the group. Michael Warren's group raised \$4700 which made them the ninth (Continued on Page 14A)

# CLC Review Is 'Excellent'

The College of Lake County underwent an intense three-day evaluation by a five-member team of educators representing the North Central Assn. in order to make recommendations regarding the college's continued reaccreditation.

In an unofficial announcement to members of the college administration following the review, Dr. Charles J. Carlsen, president of Johnson County Community College in Kansas, chairman of the North Central review team, cited the college for excellence in several areas and indicated the team would recommend that the College of Lake County continue its full accreditation and that it be reevaluated in 10 years, the maximum period of time allowable between accreditation reviews. The college received its last reaccreditation review in 1979.

In his closing statement, review chairman Carlsen commended CLC, indicating, "The college has a dedicated Board of Trustees, is extremely well-managed, has a top-quality - and I stress quality - instructional and administrative staff, and has good fiscal resources which will allow it to continue to provide this community with a high level of programs and services."

Reporting for the team, Carlsen commented that "In our collective years of experience with reaccreditation, this is the best college we have reviewed."

Responding to the report by the North Central team, CLC President John O. Hunter indicated, "The college has been judged by its peers and is in a very solid position. I am extremely pleased by the results, all the more so because this was a very experienced team. Their recommendation to North Central signs off on the past eight years of development and keys us into a new era beginning. I give special credit to the faculty and staff and student leaders who led the self-study process. Much good work was accomplished, and we shall continue to follow up on that work as we address the future."

The North Central Assn. of Colleges and Secondary Schools is the body through which CLC is accredited to offer associate degrees and certificates. CLC currently offers the Associate of Arts and Associate of Science degrees, preparing students to transfer to four-year institutions to complete baccalaureate degrees and the Associate of Applied Science degree, preparing students for immediate career entry. A variety of shorter term certificates in many specific career areas is also available.

For more than a year in advance of this accreditation review, CLC faculty and staff have been undergoing an intense self study and renewal process. Both the self study and the review by the North Central team

concentrated on four specific areas:

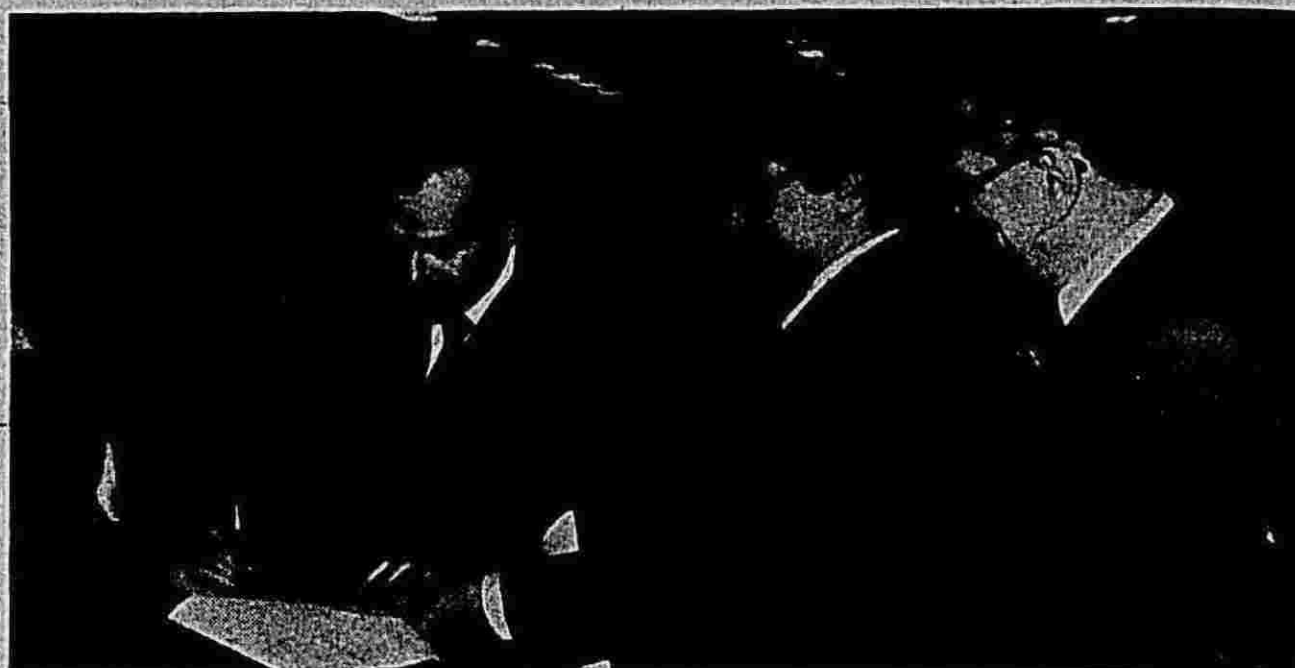

- the mission of the college,
- the human, financial and physical resources of the college and the organization of programs and services to carry out the college's mission,
- quality of student achievement and service to the community and,
- the planning process in place to meet the challenges of the future.

Following the three-day scrutiny of the college in those areas, the team reported that, "Instructional programs at the College of Lake County are excellent. Transfer students and graduates from the college do extremely well. College facilities are attractive, well-maintained and well-equipped. There is a professional and positive attitude on the part of staff throughout the college." The CLC Lakeshore Campus in Waukegan was commended for excellence in its facilities and programs.

The full report of the reaccreditation visit and official North Central disposition is expected by the college in four to six weeks.

### Excel At Tea Kwon Do

Master Sung Nak Song stands behind some of his students in the martial art of tea kwon do, who pose with some of the many trophies they have won in competition. They are from left; Kevin Dastic, Rick Cerk, and Nicole Cerk. The youngsters, along with the rest of Song's group will travel to Denton, Iowa, for the national championships on April 4 and 5.

## Dastic Fantastic In Tea Kwon Do

by CHRIS SPECHT

At the age of eight, Kevin Dastic of Antioch has done some remarkable things in the world of martial arts, or more specifically, the area of tea kwon do. Dastic has been competing in tea kwon do for the past two and a half years and is now six months away from his black belt.

In a tournament held at Gateway College in Kenosha, Wis. three weeks ago, Kevin took first place in the mini-pee wee division for board breaking. Kevin also took second place trophies for sparring and forms in the same division. The mini pee-wee division is for youngsters aged 7-8. At an American tournament in Lombard, known as the Llama Tournament, Dastic took second place trophies in forms and sparring, and a third place trophy in weapons use. In this tournament, Dastic competed against other youngsters up to 13 years of age.

Dastic is taught by Master Sung Nak Song, who teaches tea kwon do in Antioch and Mundeline. Song is a Korean who taught special forces for the Viet Nam war before moving to the Antioch area in 1974. He is an internationally accredited tea kwon do instructor and referee.

Tea kwon do is a form of martial arts that stresses discipline. Song's class is based on

four basic tenets that are designed to strengthen the discipline of youngsters taking the class. The first is that they are expected to excel in school and study hard, the second is to respect their parents, the third is to be outgoing, try to make friends and not use tea kwon do unless it is a self-defense situation, and the fourth is that the students work hard to excel a tea kwon do.

Other outstanding tea kwon do students in Song's group include Don Pedrson, Ricky Cerk, and Nicole Cerk. Pedrson took first place for board breaking, and second place for forms, in the pee wee division at the Gateway College tournament. Last year Ricky Cerk took first place in the pee wee division for sparring and forms at the same tournament. The pee wee division is for competitors aged 9-12 years of age.

Nicole Cerk took first place in forms for her division.

Also of interest, is the fact that Song's wife, Lorinda, took first place in sparring and forms at the Gateway College Tournament. Lorinda, along with others in Song's group, will advance to the national championships in Denton, Iowa which will be held on April 4, and 5.

The group will be holding a black belt test on April 12.

## Grass Lake Raises Money For Tennessee Hospital

by CHRIS SPECHT

The students of Grass Lake School in Antioch have completed a project that will donate \$5000 to St. Jude's Hospital in Tennessee in the memory of one of their classmates.

For a two week period in February, the students took part in a "Math-A-Thon" where they raised money for the hospital by signing up sponsors who would donate a penny for every math problem they completed during that time.

This is the third year the school had the program which was brought to their attention by the hospital's regional office in Chicago. The hospital solicits help of this nature from schools all across the country.

Vicki Glessner, a teacher with the school, said that the school was especially grateful

to the Intermatic Corporation of Spring Grove, who donated a sizeable portion of the money that went to the hospital.

Students at the school who did \$25 worth of math problems were rewarded with T-shirts, while those who raised \$100 or more received duffle bags. The top money earners in each grade were as follows; Jennifer Lentine, first grade, Colin Dent, second grade, Suzette Johnson, third grade, Ali Arnold, fourth grade, David Komperda, fifth grade, Michael Quast, sixth grade, Korrinne Madden, seventh grade, and Michele Skrypt, eighth grade.

The money for the hospital will be donated in the memory of Christopher Dent, the son of Matthew and Susan Dent who passed away last January. Christopher's memory will be enshrined with a gold plaque bearing his name on display at the hospital.

## Big Brothers, Sisters Plan Annual Dinner

Reservations are now being taken for the Big Brothers/Big Sisters of Lake County's Annual Spring Dinner, scheduled for May 3, at the Marriott Lincolnshire.

The evening, one of the organization's major fundraisers, will begin with cocktails at 6:30 p.m. Following dinner, internationally known humanitarian Robert DeBolt will talk on "Love, Laughter and 20 Kids."

DeBolt and his wife, Dorothy, have reared 20 children, 14 of whom are adopted and handicapped. An Academy Award-winning

documentary, "Who Are the DeBolts—and Where Did They Get 19 Kids," examined their unique life.

Psychic Ross Johnson will close the evening's activities. He is a regular at Chicago's Ambassador West Hotel.

Reservations for the general public are \$100 per plate. Corporate donations of \$1,500 or more will reserve a table for 10. Recognition will be given to these companies at the dinner.

Big Brothers/Big Sisters of Lake County is dedicated to promoting the personal growth and development of

children five to 14 years old from single-parent homes through professionally supervised matches between adult volunteers and children.

To make reservations or for more information, contact Big Brothers/Big Sisters at (312) 360-0770.

## Local Thespian Finds Success On Broadway

by GLORIA DAVIS

Lake County has its own "Local Thespian Makes Good Story" in the person of Chuck Stransky who graduated from Grayslake Community High School in 1964.

Many local residents know his family and his father Charles, former manager of Third Lake Park, who still live in the Grayslake area.

Stransky is presently appearing at the Blackstone Theater in Chicago in the role he created on Broadway in "Glengarry Glenross."

"Glengarry" will close on March 29 and end the National Tour Company's run of the show that made stops in Boston, Los Angeles and San Francisco before opening in the Windy City at the beginning of this month.

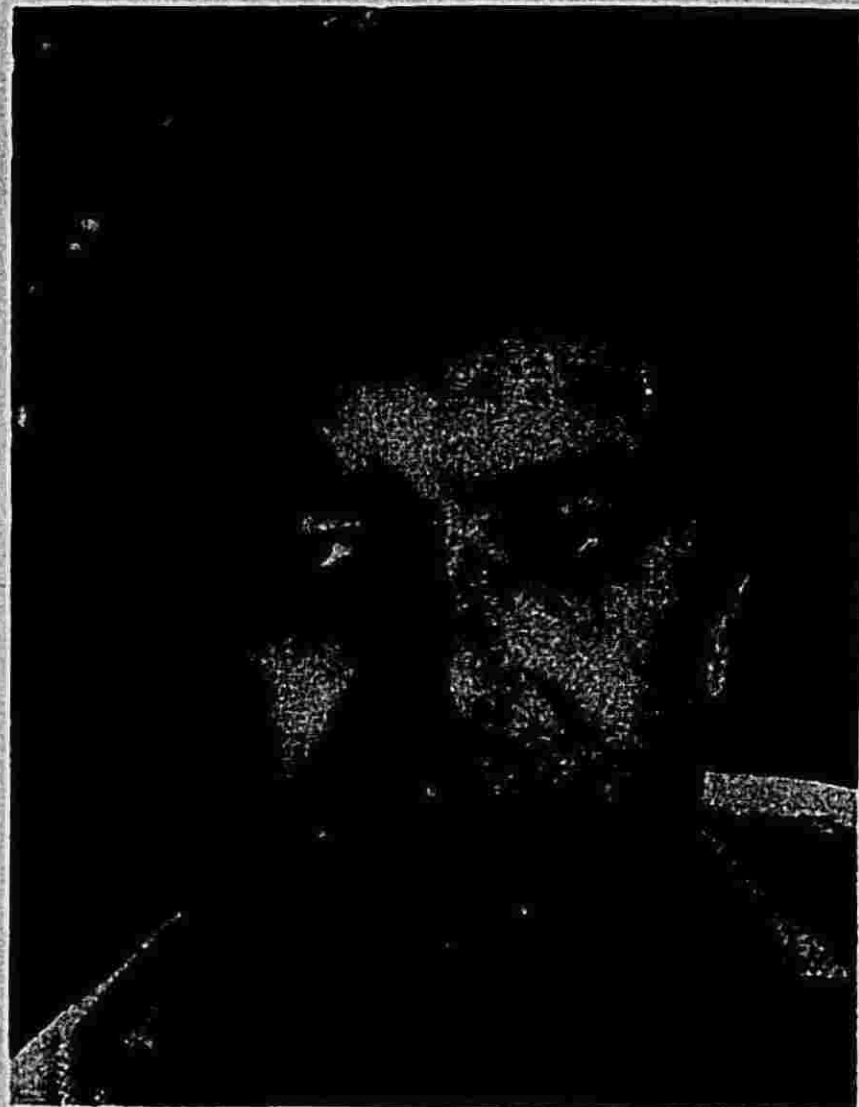

Stransky struck dramatic gold when he won the role in "Glengarry," at the John Golden Theater in New York since the play walked off with a Pulitzer Prize in 1984 and the Tony Award for the best feature actor in a dramatic play, won by Joe Mantegna, also appearing in the Chicago production along with Peter Falk who joined the show when it went on the road.

"Glengarry" also won England's prestigious Olivier Award.

"I've wanted to be an actor since I was 10 years old and was treated to the movie versions of 'Henry The V' and 'Richard The III.' I was fascinated by the fact that both of these characters were played by the same man, Laurence Olivier," said Stransky.

Following his mother's lead, Stransky grew to love all of Shakespeare's works at an early age, especially the plays that featured ghosts like "Hamlet," and "Macbeth," etc.

He was actually launched on his theatrical career and had his first exposure to "the smell of greasepaint" at the age of 15 when he started to appear in plays at GCHS. His

**Chuck Stransky**

favorite high school effort was the role of Otto Frank in "The Diary of Ann Frank."

After high school he dabbled in community theater and while attending Western Ill. University he played in "Macbeth."

Then came the College Of Lake County (CLC) for two years where he studied under Frank Harnish who instigated CLC's first theater program.

According to Stransky, many members of that class are still working in the theater or allied jobs, in particular Lori Manarek who is a professional lighting designer.

It wasn't hard for Stransky to keep up with Manarek's career since they are engaged to be married in Grayslake this spring.

The two thespians then intend to pursue their careers from a Los Angeles base.

Among Stransky's illustrious stage credits are appearances at Goodman Theater, The American

Players Theater, The St. Nicholas Theater, The Charles Playhouse, The Boston Repertory Theater, and at Marriott Lincolnshire.

He has made dramatic appearances on NBC, ABC and CABLE TV and has been featured in a lot of tv commercials, the most notable of which is his portrayal of "The Aldi Man."

His trophy collection includes a Jefferson Award nomination for best actor in "The Primary English Class," for best actor in "The Pigeon," and he won the best actor award at Southern Ill. University for his role in "The Duchess Of Malfi."

Stransky's training credits are just as impressive. He received his bachelor of arts degree from Southern University, Carbondale, where he was a theater major, and his masters from Brandeis University near Boston, Mass.

# Eggmania At Teacher Place

The ninth annual "Eggmania" will be held at Teacher Place and Parent Resources on Friday and Saturday, March 28 and 29, to run from 10 a.m. to 4 p.m. on both days.

Eggmania is suited for all ages. Groups, troops and families are invited as well as individuals. Participants may drop-in and stay as long as they like. The center is at 380 N. Pine, Burlington.

"Parents will find Eggmania an enjoyable way to continue the egg dyeing tradition because they do not have to gather the materials, prepare dyes in quantity or worry about the mess," noted Judith Schulz, Teacher Place director.

"We sponsor this event as a traditional learning experience for all. It is an opportunity for parents to do something special with their children without distractions

that normally occur at home."

Egg dyeing techniques include simple batik, band and woven styles, English pace, patch, and reverse stencil. Each participants may bring up to four dozen hardboiled eggs.

Other materials are provided, including demonstrations of the techniques for the \$1 per person registration. Ages one to 101 are welcome. Children under 12 must be with a participating adult. All proceeds help to support the non-profit center.

Healthy snack ideas for Easter baskets, recipes for hardboiled eggs, paper basket-making projects and inexpensive ideas for gifts in the Easter basket are all available at the center Tuesdays and Wednesdays between 1 and 7 p.m.; and Saturdays between 10 a.m.

and 4 p.m.

The center was established in 1976 and serves anyone who works with youth, children, or other adults. This includes parents, scout leaders, librarians, supervisors, business people, classroom teachers, religious educators, care givers, nursery school staff, 4-H

leaders, grandparents, babysitters, recreation staff, and camp staff.

It is open year round with a workspace, reference materials, examples, ideas, and resource staff. Networking ideas, resources, and people for the sake of education is its main purpose.

## Offers Latchkey Session April 16

There are a large number of parents whose children get along without direct supervision during some portion of the working day. Parents who let their children on their own, try to anticipate potential problems.

Leaving children home alone always places them in some jeopardy, but skills can be taught by working closely with children so that they understand self-care is a serious responsibility.

The University of Illinois Cooperative Extension Service has scheduled a training session for parents and interested adults on Wednesday, April 16, from 7 to 8:30 p.m. in the Extension Auditorium. Register by calling (312) 223-8627.

A movie will be shown; a parent's guide and a children's guide will be provided. A home video, called "Too Smart For Strangers," will be available for showing in the home. A

good self-care plan is one that grows out of constant monitoring and reinforcement of skills.

For more information, or to enroll in this free session, call (312) 223-8627.

# Financial Plan Class Will Begin On April 9

Persons interested in doing a better job of planning their financial future can learn from an expert in a College of Lake County course beginning April 9 at Antioch High.

The four week course featuring the six key steps in financial planning will be taught by Robert T. Wozniak, certified financial planner, and president of his own company.

Wozniak is a resident of Arbor Vista, Grayslake.

The course will run from 7 to 9 p.m. on succeeding Wednesdays, April 16, 23 and 30.

Enrollment fee is \$23. Registration and information are available at the Grayslake campus of CLC.

Wozniak has 22 years experience in the area of risk management and financial planning. He received his CFP designation from the College for Financial Planning in 1983.

He taught personal financial planning at CLC last

year and was on the staff at Northern Illinois University's marketing department between 1968 and 1972.

The six key planning points to be covered include collection and evaluation of data, identification of personal and financial goals, identification of problems, making recommendations

and alternative solutions, implementation of the plan, and review and revision.

Wozniak is a member of the International Assn. for Financial Planning and the Institute for Certified Financial Planners.

He has just returned from a national management conference at Ft. Lauderdale, Fla.

## GM Donates Car to CLC

General Motors Dist. Service Manager Jerry Benson presented the College of Lake County Automotive Technologies program with a new Chevrolet Suburban, March 13.

Accepting for the college was President John Hunter. Rothenbach Chevrolet, Grayslake, helped make arrangements for the

donation.

"CLC automotive tech students will benefit from the gift by hands-on learning experience on up-to-date equipment," according to Terry Rawlings, coordinator of the automotive technologies program.

This is the first vehicle of this type donated to the college, Rawlings explained.

## 'Gracie' To Come To Grove

"The first show for the 1986-87 season of the Grove Theatre will be a walk down memory lane for those who grew up in the 60's or a bit of déjà vu for those of us who raised children in the 60's. Either way 'Say Goodnight, Gracie' promises to be just what everyone needs to get out of the winter doldrums," said a spokesperson for the Grove.

"Say Goodnight, Gracie" by Ralph Pape is an introspective look at what made those "flower children" tick. A group of

five people gather on the eve of their 10th high school reunion to take a look at themselves, their choices and goals. Mixed with a bit of "good smoke," a few beers and a lot of talk, these people all find themselves dealing with the reality of life...just prior to mid life crisis.

This season finds The Grove in a new home-dinner theatre at the Northern Chalet restaurant, 1760 N. Milwaukee Ave., Libertyville. The theatre cuisine is a delightful change from regular dinner theatre

fare...one may choose from five main dishes ranging from poached salmon with dill sauce to beef Wellington.

Prices for Friday and Saturday dinner and theatre are \$18 per person, Sunday's prices are \$12 per person. All reservations must be made by 10 a.m. of the day of the performance.

To make reservations or for more information, call (312)680-8686. Visa and MasterCard are accepted. The Grove Theatre is a non-profit non Equity theatre company.

## Plan 28th Amateur Art Show At Fairgrounds

The Lake County Cooperative Extension is proud to announce that the dates of the 28th Annual

Town and Country Amateur Art Show will be April 25-27. The show, as usual, will be held at the Lake County

Fairgrounds, Building 7, located on Rte. 45, just north of Rte. 120, Grayslake.

The show is open to all amateur artists in Lake County. There will be a special division for students and adults and work will be critiqued by the judge on Saturday, April 26 at 2 p.m. Adult winners from this year's show will be eligible to display at the regional show which will be held in Oak Brook in June.

Judging for adult entries will be done by John Fleischer, art instructor at Salem Central High School, Paddock Lake. Fleischer has taught all media for 22 years at Salem Central, and has also instructed classes at Gateway Technical Institute and the Kenosha County Museum.

All adult amateur artists are eligible to participate. For show purposes, an amateur is defined as an individual who does art work as a pastime; has no degree in art, architecture, etc.; is self-taught or has been a participant in adult classes; and participates in local amateur exhibits within the community primarily for pleasure rather than to sell works. Those considered ineligible include people who do art work to make a living, have one or more academic or professional degrees in art-related fields and are paid regularly for teaching art to groups.

The main criterion for work entered in the show is that it be original. No items prepared from kits or other aids that eliminate the ar-

tist's basic conception and creativity can be accepted.

Examples of works being sought for the show include photos taken by participants and paintings, drawings and prints. Such work can be abstract, non-objective, portraits, still-life groupings, landscapes, etc., that are original statements by the artist submitting them.

Works not considered acceptable include photos or copies of photos that have been published in newspapers and magazines, on postcards, in pamphlets and catalogs, etc.; painting, drawing and print subjects that have been copied from art books, magazines, museums, calendars, etc.; purchased bisque-ware clay; clay objects prepared using molds; items made using macrame, metal and thread design kits or other prepackaged kits.

Acceptable works also include works done in clay which the artist prepared by wedging, making a slab or coil or throwing and for which he/she did his/her own glazing and firing. Works featuring metal work, batik, jewelry, soft sculpture, etc., that have been prepared entirely by the artist from the conception to execution stages also are acceptable.

The strict demand for original work is in keeping

with a primary of the show—encouraging adult amateur artist in the use of creative expression. Other goals of the show include:

—The provision of a place to exhibit creative works and have them viewed by an audience.

—The encouragement of the constructive use of leisure time and the growth and development of individuals' interest in the arts through participation in continuing education or adult education programs.

—The broadening of the cultural and educational background of individuals.

—The increasing of statewide interest in the

visual arts and appreciation of the arts as well as the encouragement and development of leadership for amateur art groups and associations.

—The use of professional critiques to encourage individual artists to improve technical skills and raise their artistic standards.

The Town and Country Amateur Art Show is sponsored by the University of Illinois College of Agriculture, the Cooperative Extension Service, the College of Fine and Applied Arts, the College of Applied Life Studies and the Office of Continuing Education and Public Service.

## PM&L Switches Mystery Plays

A good mystery is always appreciated and Agatha Christie is considered the reigning queen of suspense in England. Being an arm-chair detective with her stories is always a challenge.

Imagine being a guest invited to a remote English manor for a weekend of leisure and frivolity. A snow storm hits and a number of the guests abandon their cars, arriving after a trek through snow blocked roads. A mysterious guest arrives. When things seem settled, a murder occurs.

Luckily, a detective is on hand to unravel the clues. But his skis are stolen thus cutting off the last means of transportation. Communication with the world at large is impossible because

of the snowstorm. Is there a possibility of another death. One will have to see the show to find out.

Although "Sherlock Holmes" had been announced as the upcoming show, due to conditions beyond the theatre's control, PM&L Theatre in Antioch has exchanged it for the twisted, hidden plot of "The Mousetrap," directed by Lou Jones. Anyone wanting to know why "The Mousetrap" is the longest running play in London, can join PM&L on opening night or any of the show times beginning April 4, 5, 11, 12, 13 matinee, 18 AND 19.

Reservations should be phoned to (312) 395-3055 and must be picked up by 8:15 p.m. each show night.

## Curly's Marina Named

Curly's Marina of Ingleside has been named the area dealer by Nissan Outboard Motors. They will carry Nissan's line of 12 outboard motors, which has recently been introduced to the United States market. The line features recreational motors ranging from 3.5 to 70 horsepower which are known throughout the industry for their high performance, design technology and reliability.

## Local Thespian In 'Hooker'

Steve Bissell, University of Iowa 1982 graduate of the broadcasting, film and acting program, played with the "T.J. Hooker" cast of the television series starring William Shatner, filmed by

Columbia Pictures Television.

The two-hour special "T.J. Hooker" segment titled "Blood Sport" will air in May, said Marge Spencer, casting director and owner of Island Talent Casting, who handles all the Screen Actors Guild and Screen Extras Guild (SAG/SEG) casting in Hawaii.

Bissell appeared in the political rally scene as a patron at the rally. "The scene was basically a murder/chase scene," Bissell said, "much like the work I did with the Magnum P.I. show." Dodge bullets and duck was the order of the day.

"At one time, William Shatner gave me direction on my screen movement on the ramp chase scene," Bissell said, "He was very kind and helpful, making me feel secure in my job. He's a great guy to work with."

Bissell is taking a professionalism seminar with the SAG/SEG casting director, Marge Spencer. Spencer did the casting for "Blood Sport" with "T.J. Hooker" as well as "Blood and Orchids" with Kris Kristofferson which aired recently on national television.

Spencer said that a new pilot called "Island Sun" will start filming in Hawaii soon. As to Bissell's chance for a part Spencer said, "All the

Guild members have an equal chance of working on the new pilot."

Bissell is also appearing on a four-island tour (Oahu, Maui, Kauai and the Big Island) as "Bubee the Clown" with Ballooney Tunes characters at the John Henry Felix for Governor campaign rallies. Bissell is the entertainment advisor to the Felix for Governor Campaign.

Bissell told of his experience while at the University of Iowa, helping produce the "Redbird Farm Music Festival" for the George McGovern Presidential Campaign.

"Vance Borjailly donated his farm and 20 bands donated their time and talents," said Bissell, "so at a dollar a head admission price, we raised \$3,000 one Sunday in an Iowa farmyard." "Hopefully we can do the same for John Henry Felix-these Hawaiians do like to party!!!" Bissell said.

When Bissell is not acting in front of the cameras, he can be found jogging along Hawaiian highways, or, as "Bubee the Clown", marching in parades like Honolulu's St. Patrick's Day Parade.

Bissell and his wife Julie visited with her parents Francis and Beverly Axford, West Valley Drive in Wildwood, on Christmas, 1985.

## Award 11 Area Musicians

Eleven local area musicians received outstanding musicianship awards at the College of Lake County Jazz Festival, March 18.

This year's winners include: Sonya Schriber, trumpet, and Randy Reidel, trombone, both Grayslake High School; Jennifer Cassidy, alto sax, Rhett Taylor, trombone, Dan Miller, trumpet, Kris Nudo, alto sax, Todd Lambert, trumpet, Dave Ryan, trombone, John Kilik, piano, Dave Sampson, guitar, and Dave Miller, trombone, all from Warren Twp. High School.

## Kirk Players Rehearse 'Don't Tell Mother'

Cousins Paula Willems of Wildwood and Donna Lynn of Schaumburg have been cast in major roles in The Kirk Players' spring production of "Don't Tell Mother."

Willems is a Player veteran, has many acting awards to her credit and is the reigning "Most Valuable Player."

Lynn, is a four-year veteran who was Kirk's "Most Value Player" in 1983 but has only made one previous stage appearance in a Subscription Services Show. That was in a minor role as the band leader in "The Male Animal".

The Kirk Players will continue their 20th Season with this socko farce by a

relatively new author, Monk Ferris, on April 4 and 5 at Mundelein High School. Proceeds from the show will be donated to the Dist. 75 Parents Club. According to the show's director, John Lynn, "the show is a fast-paced maniacal farce that will make an evening of good clean theatrical fun for the whole family."

Veteran Kirk Player, Hill Carter, (the groups technical director) will head a "backstage" crew which includes Thom Koch of Mundelein (set and lighting designer), Fred O'Donnell of Gurnee (sound), Lisa Chrysler of Mundelein and Edie Fastrum of Vernon Hills (props) and Glen

Myers and Elise MacGlashen of Mundelein (lights).

The shows' director will be heavily assisted by stage manager, Maureen Cook Slade of Libertyville (1985's Best Supporting Actress) and veteran Carl Johnson of Libertyville who is the assistant stage manager.

Tickets for the April 4 and 5 production are \$4 for adults, \$2 for students and \$1 for senior citizens and children under 12. Tickets are available from the Kirk Players, members of the Dist. 75 Parents Club and at the door on play nights. For additional information call (312) 566-6594 after 6 p.m.

## Win Trip

Dan and Shirley Haley of Lindenhurst attended a four-day ski outing at Pine Mountain Lodge in Iron Mountain, Mich.

The Haleys earned the trip as an award for outstanding professional performance. Haley represents McKay Nursery Company in Grayslake, Gurnee and Lindenhurst.

Judging included increase in sales, professional skill, customer service and satisfaction. The top 25 of the 150 McKay representatives were invited to the ski outing.

McKay Nursery grows woody ornamental landscape plant material on 1,200 acres of land near Waterloo, Wis.

## Camp To Offer Programs

YMCA Camp Pinewood Ingleside, is offering special programs in computers, horseback riding, adventure bike camp, and whitewater rafting, announced Bill Mathis, camp director.

Computer Camp is offered each session beginning June 22. Campers receive two hours daily instruction in

language, programming and computer operation. Instructors are qualified teachers with experience teaching children. Computer campers also participate in the other camp activities—swimming, canoeing, songs, sports and crafts.

Horseback campers (10-15 yrs. old) spend two-and-one-half hours daily learning all about horses—feeding, saddling, carrying, riding gaits, trail riding, different breeds and caring for the horse. Horseback camp is offered each week, June 22-July 2. Campers also participate in swimming and other camp activities.

Bike Camp is for 13-16 year old campers ready for a challenge. Highlights of the tour include riding through the upper peninsula, seeing lighthouses, scenic Michigan lakes and the sand dunes.

Whitewater Rafting is offered July 6-18 to campers aged 13-16. Campers will enjoy rafting the exciting Natchez, Hiwassee and Ocoee rivers located in eastern Tennessee. Led by

experienced outfitters this promises to be the highlight of a summer.

YMCA Camp Pinewood is located near Muskegon, Mich. and serves seven-16 year old boys and girls in the Chicago Metropolitan Area.

One and two week periods are offered beginning June 22 and ending Aug. 15. The camp has modern cabins and buildings, a private lake and 180 acres of wooded land. The staff ratio is one-five campers and a registered nurse is in residence 24 hours a day.

Complete information may be had by calling (312) 546-8086.

# Announce Drafting Winners      Nursing Guide Available

Doug Beitel, drafting/architecture technology coordinator at the College of Lake County, has announced the winners of the Illinois Drafting Educators Assn. (IDEA) High School Drafting Competition, held at the college March 14.

With 86 entrants, CLC has the largest number of competitors in the state. Beitel, of Mundelein, is serving in his second year as competition director for the state organization. He has seen participation grow from 20 students in 1982, the first year the college hosted the event, to a record number this year.

"The competition was originated to develop interest and enthusiasm among students. Teachers interested in motivating and encouraging their students have been participants in the contest. The quality of work

completed is fantastic," according to Beitel.

The winners were awarded prizes by Koh-n-noor Co., manufacturer of drafting equipment. They will go to the state level championship Saturday, April 26.

First place winners and their schools follow: Romeo Hormillosa, Niles North; and Paul Sage and Robert Friederichs, Zion-Benton. Second place winners were: Miguel Lara, Waukegan East; Steve Alschuler, Niles North; Kevin Flynn, Lake Zurich; Mark Vendetti, Warren Twp.; and Young-Sik Whang, Niles West. Third place winners and their schools were: Leo Gubenno and Bill Netzel, Niles West; Kevin Formanski, Warren Twp.; John Goodman, Andrew Haring, Peter Delmenico and Chris Fredrickson, Evanston Twp.; Ray Kracik, Lake

Forest; and Tony Andreoni and Adrienne Jackson, Stevenson.

A free guide to help in selecting a nursing home is now available from the Illinois Department on Aging, according to Sen. Adeline J. Geo-Karis (R-Zion).

She said the booklet will provide patients and their families an understanding of what to expect of a nursing home and what to look for in making a selection. It gives details on costs, admission practices, nursing home regulations and rights of residents.

"Making a decision on a nursing home is often very stressful for patients and their family members, and this guide can help them find a suitable facility," Sen. Geo-Karis said. "In addition,

it lists other services that could be suitable alternatives for persons who do not need full-time care."

The senator pointed out that hundreds of patients are able to remain in their own homes because of assistance provided through the state's Community Care program. It sponsors daycare facilities for adults and also offers in-

home help with personal care and household chores.

Sen. Geo-Karis said the new Nursing Home Guide was developed by state agencies involved in the Governor's Nursing Home Advocacy Program. It is available without charge by calling the Illinois Dept. on Aging, toll-free, 1-800-252-8966.

## Offer Seminar

Two free seminars on Self Esteem will be offered to the public by the University of Illinois Cooperative Extension Service.

The programs will be at 7 p.m. on Monday, March 31, and 9:30 a.m. on Wednesday, May 14 at the Cooperative

Extension Service Auditorium, 33020 N. Hwy 45, Grayslake.

Speakers will be Penelope A. Klestinski, CSW, and Elfriede Massier, Ph.D.

Call (312) 223-8627 to pre-register.

## Strenger Makes Changes

The Lake County Forest Preserve Dist. has announced the following personnel changes as a result of the acquisition of Brae Loch Golf Course, Grayslake.

Tom Morgensen, who joined the forest preserve district in April, 1980, as golf course superintendent, Countryside, will serve as golf course superintendent for both of the district's 18-hole golf courses. His responsibilities will include directing, administering and supervising ground operations and maintenance. He resides in Lake Zurich.

Henry A. Birtic has been hired as golf coordinator for the Brae Loch Golf Course. He joined the district in

June, 1981, as ranger for Van Patten Woods and Spring Bluff Forest Preserves. In 1986, he received an Outstanding Park Employee Award from the Midwest Institute of Park Executives. He resides in Waukegan.

Harold E. Flanagan has been employed since 1985 as golf attendant. His new position as golf coordinator, Countryside Golf Course, will include supervision and operation of the Mundelein

golf course. He resides in Vernon Hills.

Donald Strenger, president of the Lake County Forest Preserve Dist., commented, "The district is pleased to announce these changes. These staff members have contributed a great deal in their former capacities. The future growth of both golf courses is imminent with the proven dedication and accomplishments of these employees."

A series of 12 pre-employment training classes will be offered by Catholic Charities beginning April 21.

The classes will teach networking and other approaches to job hunting, how to complete applications correctly, how to market natural skills and life experience to an employer, and how to prepare a resume. Training and practice in handling interviews will also be included.

Participants will have access to telephones, typewriters and updated job leads. Those who complete the 12 classes will be eligible for the intern program to

gain work experience.

Classes are scheduled Mondays, Tuesdays and Wednesdays from 9 a.m. to noon, over a four-week period at Catholic Charities' Near North Center, 721 N.

LaSalle Dr., Chicago. A \$1 fee is requested for each class to cover materials and video taping. Call early for registration and information: (312) 266-6100, ext. 422, 210, 237 and 214.

## Grass Fires Cause Injury

March 23 saw members of the Antioch Fire Dept. fighting a series of grass fires started by careless burning of debris and garbage. Chief Todd Maplethorpe states that open burning in the county is illegal without a burning permit. Although this past weekend was a great welcome due to its warmth and clear skies, it did bring some strong winds. These winds created the potential for grass fires and when people start fires to burn garbage and leaves, they should be sure that it is a nice, calm day.

One of the fires on Depot St. got out of control and burned the roof of a barn belonging to Robert Wagner. The fire then spread east to the property owned by Al Little causing considerable damage to his property including several pine trees.

The worst of the grass fires was one set on purpose on Spring Hill Rd. off of Grass Lake Rd. This fire quickly consumed several acres of grass and bushes. Fire fighter, Charles Bischoff, received a serious eye injury trying to put out this fire. He was

rushed to Victory Memorial Hospital in Waukegan by the Antioch Rescue Squad where he was seen by an eye specialist. Although he returned home later in the evening, he is scheduled for continued treatment. His injury was sustained when a tree branch broke off and punctured the white part of his eye. The branch remained in his eye until removed at the hospital.

Chief Maplethorpe feels that injuries to members of the Fire Dept. relating to grass fires are unnecessary and should become the responsibility of the person who started the fire. Chief Maplethorpe had members of his investigative team question neighbors and several young people in the area. Names were taken and followups will be done. Some parents in the area have already called the department with additional information.

The point that Chief Maplethorpe would like to make to all residents of the village and the township is: "Think twice before starting any fire."

## Residents:

(Continued from Page 1A)  
th biggest money raiser.

This year, the money was raised at a benefit buffet which was held at the Country House in Antioch and attended by residents of Antioch, Lake Villa, and Lindenhurst. Entertainment was provided by the "Jump In The Saddle Band" who are famous for their hit song, "The Curly Shuffle." The event attracted about 500 people and Warren said

that he was "really thrilled" by the response to the event from area residents.

"People opened their hearts and opened their wallets," said Warren.

The proceeds from the event will go to area residents who are benefiting from the Easter Seals program, and area children with speech defects that are enrolled in a rehabilitation program in Lake Villa School.

## Contest Winner

Don Wagner, of the Lake County Sheriff's Dept. Emergency Services, awards Linda De Salvo, 7, a first grader at Emmons School, with a savings bond for \$50 as Emmons Art teacher, Cyndy Vandrush, looks on. De Salvo is one of two students from Emmons who won a county wide contest for drawing the best poison prevention poster as part of Poison Prevention Week. The contest was sponsored by the Lake County Sheriff's Dept., Abbott Laboratories, and Baxter Travenol.

### On Reserve

The Eastern Illinois women's basketball team, which includes Brenda Webb of 24075 W. Grass Lake Rd. in Antioch, concluded its season with an 18-10 mark and a fifth-place finish in the Gateway Conference. The Lady Panthers registered a 10-8 conference mark.

Webb played a reserve role at forward. Webb, a 6-2 freshman, had an injury plagued rookie campaign. She had an average of 3.5 points and 2.8 rebounds in only 13 games while being out with hand and shoulder maladies.

## Hydrants To Be Flushed

The Village of Antioch Water Dept. will be flushing hydrants starting March 31, 1986 during the hours of 11 p.m. and 6 a.m., Monday through Friday. The first week the area east of Main St. will be flushed, and the second week, the area west of Main St. until complete.

## Magic Show A Delight For Grass Lake Kids

### Grass Lake News

by ARDEEN HARRIS  
(312) 395-2761

What a magic show on March 19 at the Grass Lake auditorium. The bleachers and chairs were filled to capacity.

Paul Lee made his stage presence in a puff of smoke, and the show began. Ali Arnold and Brad Priller were the first of many called up to the stage to assist Lee. The Zig Zag lady finally got her head together much to the delight of the audience. Chris Groh really helped with the rope trick. Too bad he broke three magic wands before the trick was done. Matt Fleshman, Angie Stricker and Christine Franzen helped Paul with the magical trick of putting a live bird through a piece of solid glass. How did he do it? Even the kids on the stage couldn't figure it out. Parents and children alike were amazed at the levitation trick. Paul's assistant was placed on two brooms and then one was removed-Paul then lifted her legs up to the side and she floated in mid air. How amazing!

Vincent, from the Grass Lake Kindergarten class got the surprise of his life when his pants were pulled off of him with the pull of a scarf from Paul and Monica Madden. Vince was rewarded for losing his "drawers" with a

tissue indian headdress. Tiffany Christopoulos had a first in her life with a sword through her neck. She's still walking around talking about it. Did you happen to see her new Easter bonnet-ala Paul Lee. The show ended with the famous Harry Houdini trick of metamorphosis. Paul was assisted by Brian, Cherrie, Cindy, Tony (soundtrack) and Brian on the video. The Grass Lake PTO wishes to thank all those who attended from neighboring schools and Marie Brausam who organized the whole affair.

Congratulations to the band and choir students who participated in the recent music contest held in Barrington. First and second places went to: Beth Enright, Jenny Mosier, Dawn Gardin, Missy Olenick, Carrie Hiller, Monica Madden, Aimee Kitto, Jenny Lehman, Deanna Olenick, Becky Ward, Wendy Kaufman, Barb Cavanaugh, Corky Madden, Heidi Grob, Danny Roman-ski, Deanna Olenick, Randi Terry and Paul Adelizzi.

Congratulations to the following students who will represent the Grass Lake School in the Math Contest which will be held at the Antioch Community High School. Congratulations to: Dave Clauson, John Cole,

Cathy Cramer, Jenny Harris and Ken Mattson.

Alyce's All Stars, baton twirlers, performed at the Waukegan St. Pat's parade. Those twirlers who marched are: Missy and Tricia Olenick, Tara and Tiffany Christopoulos and Kathy Harris. They are always ready for a parade!

Another reminder about ladies volleyball which is held at the Grass Lake gym every Tuesday night from 7-9 p.m. They will be playing until May, so if you are interested stop by the school and play!

Back from an exciting trip to Las Vegas are Keith and Judy Hansen. The highlight of the trip was sitting a table away from the famous Cary Grant.

The Fun Fair Committee has been busy seeking donations for this fun filled event. Judy Fechtner and Julie Groh are the chairwomen and they want everyone to mark their calendar for May 3 from 1-4 p.m. at Grass Lake School. The committee has already obtained their first local donation from Jim Moreles, Fox Lake Harbor. Thanks, Jim!

A belated birthday wish to "old" Jim Schmehl who celebrated another year on March 24. Larry Reich will be celebrating his day on March 24. Katie Rogers will turn five years old on March 25. She's a student at Camp Crayola. Happy birthday to you all!

## Haley Edged In Precinct

Former Antioch Mayor Mike Haley, an avowed candidate to bring about change in township Republican politics, lost his bid for election as precinct committeeman by three votes.

Haley was nosed out by Joe Jowarski, a supporter of Antioch GOP Chairman Charles "Chuck" Kempf, 46-43.

In other township precinct contests in the March 18 primary, Dennis Murphy defeated Ernie Opatz 54-36, Lillian Golonka defeated Jerry Heywood 62-37 and Jim Fields defeated Carl "Moose" Gulbrandsen 77-22.

James Olson garnered 62 percent of the votes cast in defeating Ray Edwards Jr.

in the other precinct contest.

Kempf expressed confidence that he will retain his township chairmanship.

"I know that there is some resistance to me, but I hope to be chairman again after the votes are counted," Kempf commented.

He said some discontent about his leadership resulted from misunderstanding over the question of which county clerk candidate to endorse. As it turned out, Antioch did not endorse either candidate.

Kempf said he supported Venita McConnel of Wauconda in the primary, but he voted to reflect Antioch's decision not to back either candidate in central

committee balloting on the endorsement question.

Antioch committeemen will vote on chairman after the March 31 Lake County Republican convention in Waukegan.

Haley's loss was his second for a precinct post.

## Decreasing Gas Prices Open New Possibilities

Travelers now find new interest possibilities as gasoline prices continue to tumble. Projecting the decline rate, it's likely that unleaded gas will soon be in the 80 cent per gallon bracket, comparable with 1978.

Leaded regular is already at that point and will probably fall into 70 cent ranges. It takes refineries about six weeks to convert crude oil to gas, so continued decline may be expected once the higher priced storage fuel is dispensed by wholesale suppliers to dealers.

Domestic tourism is on the growth pattern

this year, due to a surge of overseas terrorism. With foreign travel less attractive, the American Automobile Assn. expects 110 million U.S. travelers will be making local trips this year...an increase of nearly seven percent over 1985.

It's likely that 85 percent of that group will travel by car. In view of decreasing motor fuel prices, travelers can allocate vacation budget savings into housing, foods, or more and longer U.S. vacations. Compared with \$1.38 per gallon, 1981 gasoline prices, nearly half that amount can be channeled into other phases of travel in the family vehicle.

One such trip for the weekend of April 4-6 might be the Deer Classic. Those generally interested in wildlife, and especially in deer hunting, have an opportunity to visit the new Illinois-Iowa Deer Classic in the Blackhawk Hotel and River Center, at Davenport, IA. Opening at 3 p.m. Friday, April 4, and closing at 5 p.m. Sunday, April 6. Three hun-

especially along river areas.

One unusual mount consists of two buck white tails irrevocably antler-locked in combat...one died. His dismembered head and rack were carried by the wimmer of that battle when he was taken by the hunter now displaying the interlocked heads. Many interesting deer related free seminars are included daily.

It's also time to plan ahead for the 1986 World's Fair that opens May 2 in Vancouver, British Columbia, Canada. "World in Motion—World in Touch" is the theme. Canadian provinces and 46 nations, plus American states, will be displaying between May 2 and Oct. 13.

Ten million tickets have already been purchased. Your favorite travel agent can arrange transportation and housing. It's an outstanding opportunity for a very special trip to scenic Canada, the world next door, while enjoying their 28 percent favorable monetary exchange rate.

Should our southland be a favored goal, try Vicksburg, MS. Their spring home pilgrimage begins in March. Nine antebellum homes are featured during morning and afternoon tours, or candlelight trails from 7 to 9 p.m.

## Virginia: Seat Of Liberty

While New York ponders a possible shortage of ground transportation for this summer's Liberty Centennial, Virginia is busy promoting itself nationally and internationally as the seat of liberty.

Famous for its many significant, historical ties to the United Kingdom, France and Germany, Virginia has launched a cooperative advertising program in the international market with Pan American World Airways and the United States Travel and Tourism Administration.

When it comes to liberty, it's hard to top Virginia's history and premier historical attractions. It has been said that the first 150 years of Virginia history are American history.

No other state has had the experience of putting together its own representative government dating from 1619.

This tradition of government would have been impossible without the array of freedom-loving, articulate families that Virginia's 17th and 18th century agrarian economy fostered, families like the Lees of Stratford Hall, the Randolphs of Williamsburg and Richmond, and the Washingtons and Custises of Northern Virginia.

Thomas Jefferson, author of the Declaration of Independence, grew up in the foothills of the Blue Ridge Mountains as an ardent, responsible patriot. Patrick Henry from Hanover, 20 miles north of Richmond, was, of course, the most fiery, impassioned patriot of all. This year marks his 250th birthday.

Special birthday celebrations will be held at Henry's two homes—Scotchtown, a half-hour's drive north of Richmond, and Red Hill, an hour's drive southeast of Lynchburg, which celebrates its bicentennial this year with many activities of its own.

In addition, reenactments of Patrick Henry's famous Stamp Act Debate will be staged in Colonial Williamsburg, beginning in late March, and his "liberty or death" speech at Richmond's St. John's Church will be reenacted on summer Sunday afternoons.

Travelers searching out the roots of liberty will want to visit the birthplace of free, representative government in Virginia's historic triangle—Jamestown, Williamsburg and Yorktown. Jamestown, the site of the first permanent English settlement in the New

World, was also the place where the first English-speaking government body in North America met for assembly in 1619. The present Richmond Capitol, inspired by Thomas Jefferson, thus houses the oldest English-speaking continuous lawmaking body in the Western Hemisphere.

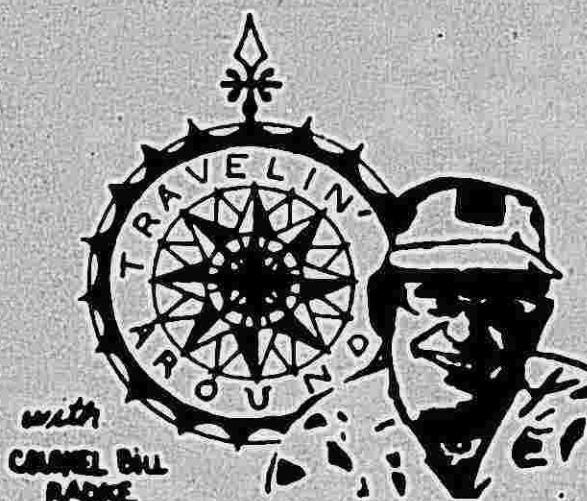

Yorktown, the scene of the final, fateful battle that assured American independence, offers insight into America's early international alliances: Comte de Grasse's French fleet came to George Washington's rescue at Yorktown, and both Marquis de Lafayette and Baron von Steuben provided invaluable support to land forces.

Williamsburg, as Virginia's colonial capital, was the government seat of the largest, most prosperous of the original 13 colonies. Current travelers see, through Colonial Williamsburg's living history, how the lives of past Virginia men and women shaped today's world in ordinary as well as extraordinary ways.

Virginia's location, adjacent to the nation's capital, is an added bonus for vacationers coming from great distances. A relaxed, economical stay in Northern Virginia provides an ideal base for exploring not only the capital city, but also the hunt country, restored historic towns and sophisticated shopping and entertainment areas of Northern Virginia. From Northern Virginia the historic triangle is only a three hours' drive.

Another bonus for travelers is the outstanding outdoor recreational opportunities afforded by the state's Atlantic Ocean beaches, rivers and Chesapeake Bay. Among the world's oldest mountains, the Appalachians and Alleghenies feature a wide range of family resorts as well as activities such as canoeing, hang gliding, hiking and biking. The 105-mile spectacular Skyline Drive, one of America's premier scenic roadways, joins the 469-mile Blue Ridge Parkway at Waynesboro.

## Whitetail Deer Interest Growing

Interest in the whitetail deer just keeps growing and growing. Response to the first annual Illinois/Iowa Deer Classic is a good indication of that.

The show will be held April 4-6 at the River Center & Blackhawk Hotel, Davenport, Iowa. It opens at 3 p.m. Friday, April 4 and closes at 5 p.m., April 6. "The whitetail deer is the number one big game animal in the U.S., without question," said Glenn Helgeland, a nationally-known outdoor writer and co-sponsor with the Iowa Bowhunters Assn. of this Deer Classic.

"Here in the Midwest is no exception. Some of the finest trophies to be taken anywhere have come out of Illinois and Iowa and will continue to."

More than 300 deer trophies are expected to be entered in the contest and then displayed as part of the entire show.

For full information on the trophy deer contest, seminar schedule, show hours and other details, write to Illinois/Iowa Deer Classic, 7626 W. Donges Bay Rd., Mequon, WI 53092 or call 414/242-3990 days or 414/242-3530 evenings. Or call 309/828-1117 or 319/847-1234 (evenings).

# Alter Jury Verdict Overturned By Bua

U.S. Dist. Court Judge Nicholas J. Bua has overturned lower court rulings and has denied a \$28.5 million jury verdict awarded to developer William Alter.

The financial status not only looks a lot better for the county, but also for the Village of Grayslake, Grayslake Mayor Edwin Schroeder and Lake County Board Reps. Norman Geary and George Bell (Bell is no longer on the board).

Alter, of Winnetka, sued the above-mentioned individuals in May 1981, charging that they had

conspired to illegally block him from receiving sewer service for his proposed development.

Bua's decision may also allow for the county to recover \$1.3 million in legal fees it spent defending against Alter's suit.

Alter's proposed development, called "Heartland," borders Grayslake and was annexed to Round Lake Park in 1980. It consists of 1,874 acres. His Unity Venture property is a 585-acre piece of land that was annexed to the Park in 1976.

It was claimed by county officials that Alter could have made more money from the jury verdicts in his lawsuits than he could from actually developing his property.

In January 1984 a U.S. Dist. Court jury ruled that denial of sewer service to Alter constituted violation of federal antitrust laws. Since then, Congress has passed a law exempting local governments from paying monetary damages in future antitrust suits. However, the Alter decision was still intact.

# County Board Nov. Who's Who

by JOHN STEINKE  
(Political Columnist)

Twelve of the Lake County Board's 24 seats will be filled in the 1986 elections. Eleven out of 12 incumbents sought renomination in the March 18 primary. Only Dist. 4 Rep. Donna-Mae Litwiler of Ingleside didn't seek reelection. Mrs. Litwiler defeated Wauconda Village Clerk Venita L. McConnel for the GOP nomination for Lake County Clerk. She will oppose Democratic incumbent Linda Hess in the Nov. 4th election. Hess was unopposed for renomination for a second term.

In the Republican primary, four out of eight incumbents were defeated, including: Dist. 1 Rep. James Mitchell of Deerfield, Dist. 5 Reps. Robert Depke of Gages Lake and Eugene Martin of Libertyville, and Dist. 6 Rep. Pat Wilson of Mundelein. One Democratic incumbent lost: Dist. 2 Rep. Stan Pekol of North Chicago. The new GOP winners are Richard Price of Dist. 1, F. T. "Mike" Graham and Carol Calabresa of Dist. 5, and Bruce Hansen of Dist. 6. The Democratic newcomer is Jerome Hodge of Dist. 2.

Four Republican incumbents were renominated, including Dist. 1 Rep. Helen Amendola of Highland Park, Dist. 3 Rep. Jim LaBelle of Zion, Dist. 4 Rep. Norm Geary of

Grayslake, and Dist. 6 Rep. Glenn Miller of Long Grove. Two Democratic incumbents were primary winners, including Dist. 2 Rep. John Balen of Waukegan and Dist. 3 Rep. Sam Payne of Zion. Balen won in a five-way contest while Payne was unopposed for renomination.

Republican candidates are unopposed in four county board districts. The Democrats have slated county board nominees in Districts 2 and 3. Under Illinois statute, the Lake County Democrats have 60 days from the date of the March 18 primary to place candidates on the ballot for the Nov. 4 election. Here are the current candidates in the six county board districts:

**Dist. 1: Deerfield and West Deerfield Twp., along with the southern third of Shields Twp. and the eastern portion of Vernon Twp.**

--Republicans Helen Amendola and Richard Price  
--No Democratic candidates

**Dist. 2: Southern Waukegan, all of North Chicago and most of Lake Bluff**

--Republicans Matthew Miholic and Frances Vetrone  
--Democrats John Balen and Jerome Hodge

**Dist. 3: Benton, Newport and Zion Twp., along with northern Waukegan**

--Republicans Jim LaBelle and B. F. "Bud" Bailey

--Democrats Sam Payne and Bertha Ogrin

**Dist. 4: Antioch, Avon, Grant and Lake Villa Twp.**

--Republicans Norm Geary and Charlotte Kiesgen  
--No Democratic candidates

**Dist. 5: Libertyville, Vernon and Warren Twp.**

--Republicans F. T. "Mike" Graham and Carol Calabresa  
--No Democratic candidates

**Dist. 6: Cuba, Elia, Fremont and Wauconda Twp., along with the western portions of Libertyville and Vernon Twp.**

--Republicans Glenn Miller and Bruce Hansen  
--No Democratic candidates

This year, 12 out of the 24 county board members will be elected to four-year terms. Lake County Board Representatives earn an annual salary of \$16,000 for parttime governmental responsibilities. In addition, county board members also serve as forest preserve commissioners. They receive \$20 per meeting plus 20 cents a mile for every forest preserve session that they attend.

# Boy Back With Dad, Mom Arrested In Calif.

A two-year-old boy who was abducted by his mother Feb. 17 has been reunited with the father in San Diego, Ca., Lake County Sheriff Robert H. Babcox announced.

The mother, Toni Meyer, age 25, of Waukegan, is being held by San Diego authorities on an Illinois warrant for child abduction, Babcox said.

"Mrs. Meyer violated a court order and fled the jurisdiction with the child," Babcox said. The Meyers are divorced, Babcox added.

"Our I SEARCH Unit was informed that the mother and boy were located in Encinitas, California, by San Diego County Sheriff's Deputies," Babcox said.

"Prior to her arrest, the trial led to Texas," the Sheriff said. "With further in-

vestigation, the I SEARCH Unit traced Meyer to California. At that time, our I SEARCH Unit contacted San Diego County for assistance in the case."

The father, Patrick, of Grayslake, is still in California making arrangements to return to Illinois with his son, Babcox concluded.

## Unsettled Stevenson

Some Democrats, notably former U.S. Sen. Adlai Stevenson, are in a tizzy because of surprises within their ranks wrought in the spring primary by unknown and unheralded candidates. Stevenson is in such a snit that he's considering organizing his own Democratic party to run to the November general election.

What has Stevenson steaming is the fact that his youthful running mate has political philosophies and ideas about government that differ drastically from his own liberal posture. As a proper left-leaning candidate for governor, Stevenson finds his party's rightest lieutenant governor aspirant radical and unacceptable. Horrors!

Cooler and more pragmatic members of the Democratic party undoubtedly will prevail. After all of Stevenson's hand-wringing and wretching is over, the young man and woman who won spots on the Democratic state ticket fairly and squarely will be allowed to stand. The "New Look"

Democrats will present themselves to the voters for better or worse.

Sen. Stevenson and other unsettled Democrats should take a cue from their Republican counterparts who have considerable experience dealing with party members covering all shades of the right-left spectrum. They might find it both beneficial and refreshing to welcome participation from ultra-conservative thinkers.

Let the voters decide whether a candidate is a kook or a radical. Our system is designed to be open and provide a platform for widely divergent political opinion. The system gets in trouble only when the politicians decide who should run and who should be elected. While the Democrats are mulling over this problem, it would do well for Lake County Republicans to give thought to the dangers of closing the door to potential candidates just because they think differently, don't belong to "the club" or aren't pals of office holders.

## Voters Skipped Clerk

Voter apathy was the principal winner in the March 18 Lake County primary. Only 42,524 out of 221,856 Lake County voters cast primary ballots. There were 30,307 Republican votes and 10,342 Democratic ballots. In addition, 1,875 non-partisan votes were recorded in the primary. Only 19.2 percent of the county voters participated in the spring election. This was the lowest primary turnout since the 1978 off-year contest.

The most hotly-contested race was between Dist. 4 County Board Rep. Donna-Mae Litwiler of Ingleside and Wauconda Village Clerk Venita L. McConnel for the Republican

nomination for Lake County Clerk. Litwiler garnered 14,507 votes to McConnel's 10,755. But the McConnel - Litwiler contest generated little voter interest. In fact, 5,045 GOP primary voters didn't mark for either county clerk candidate. Thus, 16.6 percent of the Republican electorate didn't support either aspirant.

The following table shows the primary voter turnout for the past five off-year elections in Lake County. With the exception of 1974, only one-fourth or less of the county voters have recorded ballots in the March primary.

Election Year:	Reg. Voters	Votes Cast	Turnout %	Rep. Ballots	Dem. Ballots	Rep. %
1970	149,731	34,797	23.2%	30,152	4,645	86.7%
1974	184,264	52,666	28.6%	36,348	16,318	69.0%
1978	212,867	34,200	16.1%	24,340	9,860	71.6%
1982	186,545	47,492	19.2%	37,852	9,017	80.8%
1986	221,856	42,524	19.2%	30,307	10,342	74.6%

## Salute Exchange Clubs

On March 27, the National Exchange Club, the oldest and largest exclusively American service organization, will celebrate the 75th anniversary of the founding of the first Exchange Club in Detroit, Mich., in 1911. The club was formed by a group of Detroit business and professional men led by Charles A. Berkey, for the purpose of exchanging ideas and information and serving the community.

Today, three-quarters of a century later, there are nearly 1,200 Exchange Clubs, composed of some 43,000 business and professional persons, across the United States and Puerto Rico. Locally, there are clubs in Grayslake, Gurnee, Antioch and Waukegan. These Exchangites are actively involved in a diverse array of programs

focusing on Americanism, youth and community service.

Exchange is widely known for its ongoing efforts to foster lasting respect and appreciation for our national heritage, through such acclaimed projects as the Freedom Shrine. Exact reproductions of 28 American historical documents, including the Declaration of Independence, the Bill of Rights, and the Gettysburg Address, are permanently displayed in the shrines. To date, nearly 9,000 Freedom Shrines have been presented to schools, universities, libraries, capitol buildings, national memorials and other public places.

We join in saluting this worthwhile civic organization.

## Letter To The Editor:

### More Farm Taxes?

Editor:

In your column, you quoted Lake County Board member Glenn Miller thusly, "The time may be coming. I used to be against county-wide election of the chairman, but there may be something to having the chairman elected by the people."

Could the something be "home rule" for Lake County? Home Rule has been repeated by the citizens when put to a vote. Do they know that Home Rule goes with electing their Chairman?

They may not have a choice as I understand our state legislators are considering reducing the requirement for home rule to 400,000 citizens instead of 500,000 and, my last information was a consideration of 265,000.

With that change, many of the state laws which protected land owners against unscrupulous neighbors will be eliminated leaving a wide open field for developers and higher assessments and taxes for farmers.

## Editor's Viewpoint

### Primary Election Was Ladies Day For Republicans

by BILL SCHROEDER

If you were Republican—and female—winning was a sure thing in the 1986 primary election.

Of the nine women on the Lake County GOP ballot, eight were victorious. The only loser was pitted against another woman.

Are you listening Lake County GOP Chairman Bob Neal? Are you listening ladies?

If the '86 primary was any indication, distaff candidates are the wave of the future for the county GOP organization.

Probably the biggest indicator of the growing influence of Republican women is at the County Board level where four women Republicans won nominations. They included Helen Belmont Amendola of Highland Park, and incumbent from Dist. 1; Frances Vetrone of North Chicago, Dist. 2; Charlotte Kiesgen of Fox Lake, Dist. 4; and Carol Calabresa of Libertyville, Dist. 5. With the exception of Vetrone, who faces stiff competition in November in a heavily Democratic district, the others are all but elected coming from good GOP country.

Sybil Yastro was an easy winner for regional superintendent of schools, a county office, defeating a wrestling coach, State Rep. Virginia Fiester Frederick, running for reelection; State Sen. Adeline Geo-Karis, running for state comptroller, and State Rep. Judy Koehler, a candidate for U.S. Senator, were the other victorious women on the Republican ballot in Lake County. They were unopposed.

The lone loser was Village Clerk Venita McConnel of Wauconda who was defeated by Dist. 4 County Board Rep. Donna-Mae Nix

Litwiler for the nomination for county clerk. When it comes to female candidates, there's no such thing as the weaker sex in the Lake County Republican party.

## GOP 'Pack Move' Fails; Pro-Open Space Wins

by JOHN STEINKE  
(Political Columnist)

On Dec. 3, 1984, Dist. 3 Rep. Jim LaBelle of Zion defeated then incumbent Glenn Miller of Long Grove for the Lake County Board chairmanship. LaBelle was elected chairman by a 13-11 vote on the 27th ballot. His coalition included eight Republicans and five Democrats. Eleven GOP members supported Miller's abortive reelection bid. The supporters of Republican Norm Geary of Grayslake and John Balen of Waukegan provided LaBelle with his margin of victory.

Lake County GOP Chairman Robert Neal of Wadsworth is also a Dist. 3 county board representative. He supported Miller's reelection as county board chairman. Reportedly, Neal threatened LaBelle with political destruction because the Zion rep. struck a bargain with the five Democratic county board members to secure the chairmanship. In the 1986 March primary, Chairman Robert P. Neal and the party

organization endorsed candidates to destroy the LaBelle-Geary-Balen coalition.

The Neal strategy was to elect GOP regulars to the county board. Neal expected to diminish the influence of the Democratic minority in the selection of the new chairman next December. The primary returns indicate that Neal's machinations were a dismal failure.

Both Republicans Norm Geary and Jim LaBelle won renomination over Neal's sponsored challengers. Democrat John

## Commentary

Balen was renominated over stiff opposition. Neal's worst defeat occurred in Dist. 5 where mavericks F. T. "Mike" Graham and Carol Calabresa, both of Libertyville, defeated the endorsed candidates, incumbent Bob Depke and Jerry Brunette.

Graham's victory and Depke's loss probably guarantees that the pro-environmentalist political moderates will dominate the county board over the pro-development party regulars during the next two years. Barring any drastic changes in the Nov. 4 elections, the political moderates will be led by Jim LaBelle, Norm Geary, and Mike Graham. The party regulars will be leaderless with the ouster of the forceful Bob Depke.

The primary totals suggest that Lake County voters object to the steady encroachment of concrete on fertile farmland. Apparently, the electorate doesn't want to transform the county into one big Pizza Hut. The March election indicates that hard-core voters want open spaces and open parties. They dislike machine politics and uncontrolled commercial growth.

## 10 Percent Of All Women Suffer From Anorexia

by RON HARRIS

An estimated 10 percent of all women in America suffer from anorexia, a mental condition characterized by a fanatic or hysterical avoidance of food. Some experts put the figure as high as 30 percent in its milder forms.

In extreme cases, death can result as the immune system in the body breaks down and the victim contacts other serious diseases, much in the same fashion as AIDS kills. But even more startling, many women afflicted with the mental disorder do not realize that there is anything wrong with them, even in the most severe cases.

Andrea Abbate, who is five foot eight inches tall, weighed only 82 pounds at the age of 23. "My goal at the time was to lose another six pounds," she said. "But I am sure I would have died first. I was already constantly getting sick and needing hospitalization."

"I began to spend more and more of my time worrying about how not to eat. I didn't think of food in terms of meals but in bites. The task was to get through the day with as few bites as possible. I got to the point that I thought 17 sunflower seeds was a lot of food," she said.

"I had so little blood left that I was constantly cold. I would have to walk around in 90 degree weather dressed in a fur coat just to keep warm," Abbate added.

When doctors tried to get Andrea to eat more she believed that they were just jealous of her thinness and were in a conspiracy against her. "It never occurred to me that there was something wrong with me," she said.

Because of her extremely slender figure, Abbate won a Barbie doll look-alike contest and the toy's promoters even made a film cut so that you couldn't tell her apart from the miniature. It was never realized that she was walking on a thin tightrope for her very survival - because she didn't realize it herself.

There are now a couple of positive treatments for

anorexia, according to Dr. Jeff Bland, director of the Linus Pauling Laboratory of Nutritional Analysis in Washington, D.C.

Dr. Derick Bryce-Smith at Reading College in England has found links between zinc deficiencies and appetite loss. Also arginine in 500-1000 daily milligram doses has been found to enhance hunger.

But anorexia is mainly psychological. It only really exists in the mind of the victim, which is why doctors have such a difficult time treating it.

"Even nutritional treatments are of little value if the patient is not also undergoing counselling of some kind," said Dr. Bland. "The patient has to change the image they have of themselves. The trick is to gradually get the person to eat a little bit more, another

slice of bread, a couple more mouthfuls of meat."

In Andrea's case, she was fortunate to overcome the disease without years of expensive therapy. "I had some Dianetics counselling and in four hours found the reason I didn't want to be big in any way. It had to do with something that happened to me while I was still in my mother's womb. I immediately went out and bought a cheeseburger, the first I had eaten in over ten years," she said.

What Andrea handled was the mental trauma connected with the disease, which enabled her body to then heal itself. Dianetics makes no claim of medical cure.

"Two months later I was pregnant. In severe cases of anorexia such as mine, you don't have enough blood left to have children," Abbate added.

## New Classes At Condell

Registration for a new course teaching the Gamper Method of natural childbirth is currently being accepted by Condell Memorial Hospital. Beginning Friday, April 11, the 10-week course will be held on consecutive Friday evenings from 7 to 9:30 p.m.

Offered three times during 1986, the Gamper program will be taught by Lori Adams and Pat Hansen, staff nurses in the hospital's New Life Center.

Having taken the necessary training and certification, both nurses feel the addition of the Gamper program will complement the other childbirth preparation, sibling and grandparents classes offered by Condell.

The Gamper course teaches a method adapted from methods taught by Grantley-Dick Read, the father of natural childbirth who introduced his program in England in 1900.

The Gamper method teaches that sensitivity to inner body changes enhances a

mother's ability to cooperate with events during labor. It also stresses the close involvement of the father as a vital support system for the mother. The classes are team taught and emphasize abdominal breathing.

It is recommended that a woman register as soon as she learns she is pregnant. To register or for more information, call the Public Relations/Marketing Dept. at Condell Memorial Hospital, (312) 362-2900, ext. 5275. The fee for the 10-week program is \$75.

## Packing Cart Well Saves Headache At Check-Out

Shopping carts can be hazardous to your demeanor.

I've been on both ends.

Most painful injury: Cart shins. Blind-sided. "I'm really sorry."

Most embarrassing moment: Wheeling away someone else's cart, half-asleep. "I believe that's mine."

Most disabled cart: Wobbly, uncontrollable front right wheel. Bam! "Sorry, sir. Are you hurt?"

Most frequent complaint: Grid lock. Stock boy and boxes to the left, dawdling shopper to the right, abandoned, overflowing cart behind, two speeding carts dead ahead.

Packing the cart correctly will save you a headache at the check-out counter. I try to divide my cart into three sections.

First, I put all the wet products, such as meats, frozen foods and dairy products, to one side. Secondly, I place all dry items on the other side. Finally, I leave a healthy amount of space up front for large goods, such as soda, dog food and a sack of potatoes.

In the cart's little tray in front, I carefully place the eggs, with my shopping list on top.

Shoppers, be careful out there.

### Cheese-Stuffed Eggs

6 hard-cooked eggs  
Pinch of salt  
1/4 cup Cheddar cheese, spread

Paprika to taste

Halve eggs lengthwise and remove yolks; mash, sprinkle on salt and blend with cheese spread. Refill whites; sprinkle with paprika and chill. Serves four to six.

## Easter Means Summer Is Near

by CHARLENE WHITNEY

For years people have always thought that a basket for the children should be filled with a live pet such as chicks, ducklings, rabbits, etc. Easter is the new spring of life as winter ends and the promise of summer is on the way. This is not a good reason to fill the child's basket with a pet.

More often, the child can't care for the new pet and after a couple of days or a couple of weeks, the child grows tired of the pet. This isn't fair to the child or to the pet. When these things happen, something has to give.

Rabbits seem to be the first animal that comes to mind when someone says "Easter." We fill our children's minds with the Easter Bunny.

There are many types of rabbits. Many are used for show or just for pets. Bob Teela uses rabbits for what else, magic.

Bob Teela is from Wheaton. He does shows for all types of churches, groups, schools, etc. He does about 100 shows a year. His act is named "Meaningful Magic."

I have watched this man doing a show and it was truly great. For many of his tricks, he needs smaller rabbits about one to two months old. He has a friend that raises rabbits and so Teela will rent the rabbits from him.

Usually two or three rabbits are used. Teela calls them Max, Thumper, and the third one is Nepolen. If these rabbits could talk, they might have a lot to say about how smoothly these fine tricks are done.

Teela says he uses rabbits like so many magic acts because they are cute and quiet pets. People get excited about rabbits as they are so charming. The kids can hardly wait for their turn to get to pet the rabbits.

Teela had a Dutch Min. rabbit for years. She was black and white and went by the name of Patches. Teela really loved her. She died years later of an illness.

As a child, he had a rabbit for just a couple of months that used to run to the kitchen every time someone opened the ice box door. It

would slide all over on a dead run until it got there and then sit up by the door. This rabbit knew all kinds of goodies could be found here.

Sometimes a full grown rabbit is used for his act. He calls this one Harvy. This name is related to the show Harvy as a six-foot invisible rabbit.

Teela says that he never gives away rabbits at any

time and that includes shows. Rabbits can be trained and they are cheap to buy, but most people don't stop to think about how much work and expense goes into the pet. This is a life and it should be taken care of.

Teela hopes that people will take caution against giving a child a rabbit, especially for an Easter treat. They can't care for

them and often squeeze too hard while handling them. This can hurt the animal and even kill it.

If you should need a great magical act, give Teela a call in Wheaton.

Make your child happy and fill his basket with toys and candy that he really likes. This will make the Easter Bunny very happy.

## To Present Reimbursement Program

"How Hospitals Are Reimbursed" is the topic that will be presented at St. Therese Medical Center March 27, at 7:30 p.m.

Topics that will be included in the presentation are what the Prospective Payment System is, Utilization Review and your right as a patient.

## BUYING A HOME SATELLITE DISH IS COSTLIER THAN YOU THINK.

Before you spend your hard earned money on a satellite receive dish you should learn the facts.

This year popular premium services like HBO and Cinemax will begin scrambling their signals with highly sophisticated electronic encryption devices.

And this new technique won't be

limited to just premium services. Many basic cable channels like ESPN, MTV and CNN have announced their intentions to scramble signals.

**What does this mean for satellite dish owners?**

In addition to paying several thousand dollars for the purchase and installation of a receive dish, it will be necessary

to spend hundreds of dollars on descrambling equipment **plus** pay monthly service fees for each channel received.

**Make your decision based on the facts.**

## WTHS Track Routes

Warren Twp. High School's track team finished its indoor portion of the schedule with a lopsided dual meet win and a sixth place finish in an invitational last week.

The Blue Devils outclassed Grant 85-37 to finish the indoor season 2-0 in dual meets. Warren topped Waukegan West to start the season.

Against stiffer competition, WTHS finished sixth in an eight-team Fenton Indoor Invitational which was run in a co-ed format.

"It's a good start and hopefully it will carry over when we go outdoors," Warren coach Ron Taulu said.

The Blue Devils start outdoor competition April 8 against Grant and Waukegan West at West.

Against Grant March 19, the host Blue Devils racked up first-place finishers in almost every event.

"It was Grant's first meet and they have only been

practicing two and one-half weeks," Taulu said.

The four-lap relay team of Pekeda Bennett, Ed Werner, Brian Sitz and Mike Templeton broke a school record with a time of :59.7. The old mark was :59.9.

"All four runners ran good legs," Taulu said.

Warren's Dedrick Lanton won the shot put with a heave of 46 ft. 6 1/2 inches. Lanton also won the high jump at 6 feet, 1 inch.

Sean Stunich won the long jump at 18 ft. 5 inches. Mike Schlicht won the pile vault at 10 feet.

Leon Darby won the high hurdles for Warren with a 7.7 time, with Bennett winning the 50-yard dash with a 5.8 clocking. Bennett also won the 400-yard dash in 58.8.

Geoff Foot won the 800 meter run in 2:18.1.

The WTHS eight-lap relay team of Tim Meyer, Werner, Sitz and Templeton won in 2:11.4.

Scott Brown's 5:02.5 won the 1600 meter run and Darby won the low hurdles in

6.9.

The 12-lap relay team won. At the Fenton boys and girls meet, WTHS finished sixth with 46 1/2 points. Glenbard South won the meet with 111 points, Joliet West was second with 94 1/2 and Fenton third with 86 1/2.

Stevenson and Rich South finished ahead of the Blue Devils with 61 1/2 points and 52 points, respectively.

"You're talking about some teams with bonafide indoor programs," Taulu said of the Fenton meet.

The relay teams continued strong performances. The two-mile relay finished fourth consisted of Brown, Foot, Eric Twadell and Sean Fredrick.

The four-lap relay team was fourth.

Lanton finished second in the shot put with a 38 feet 2 1/2 inch toss. Snell was fourth in the shot put with a 42 feet 1 inch throw.

Bennett ended fifth in the 50 yard dash with a 5.9 clocking.

## GCHS Selects Stewart Top Varsity Wrestler

by DAN G. O'SHEA

Grayslake High School's varsity and junior varsity teams had a combined record of 11-22 last season.

The varsity finished at 3-15 while the junior varsity dropped seven of their last

eight matches after a 7-0 start for an 8-7 record.

Keith Stewart, a 98 pound wrestler, stood out on the varsity with a 30-7 record. He was unbeaten in Northwest Suburban Conference dual meets. Stewart was

named wrestler of the year at the awards night. Stewart finished second in the conference and third in the regionals.

Although Keith Greca missed part of the season because of a disciplinary problem, the junior 105-pounder finished with a 14-3 record and qualified for the state tournament. He won a conference title, took second in the regionals and second in the sectionals.

Freshman Che Kearby had a 12-7 record on the varsity at one of the lighter weights before being injured.

Jeff Bonfanti, a 138-pound sophomore, finished with a 20-1 record at that level. Sophomore Todd Mason at 105 pounds also stood out with a 17-2 record. The JV team lost several wrestlers to injuries the last half of the season.

Three Grayslake varsity wrestlers, Brian Yucell, Hanson and Pat Casher made the conference all-academic team.

## Sportsmanship Gives Frosh Good Season

The Antioch High School frosh wrestling team had another successful season. The team finished the year with an 11-5 dual meet record, and placed fourth in the 16 team Crown Tourney; fourth, fourth, and third in the eight-team Woodstock, Grayslake, and Warren tourneys respectively.

Of the 23 boys who began the season, 16 completed it and won freshman awards. Those boys were: 167, Brian

Buszta; 132, Jason Campbell; 185, Joe Cord; 98, Rob Delaney; 90, James DiSalvatore; 138, Kent Hansen; 126, Kirk Hansen; 145, Rod Hoerle; 119, Sean Kasco; 112, Don Kitterman; 119, Don Roszkowski; 98, Mike Sandrik; 155, Roger Scott; 119, Dave Sheppard; 105, Mike Ulsch; and 126, Joe Walsh.

The most wins were compiled by Kirk Hansen at 126 pounds who had a record

of 25-1. Dave Sheppard, Jason Campbell, Rod Hoerle, Kent Hansen, and Mike Ulsch are others who had won at least 18 matches. Had the team a full complement of wrestlers for all weight classes the won-lost column for the team could have been bettered.

"In terms of developing good sportsmanship, attitude, and athletic motivation, the 1985-86 squad was very successful," said Coach Ken Anderson.

## People Taking Advantage Of Tax Shelter

by GARY S. MEYERS

Americans will pump an estimated \$25 billion into Individual Retirement Accounts between March 1 and April 15 of this year, as more and more people take advantage of the tax shelter for little guys.

Some 15 million Americans now own IRA accounts, yet the majority of the nation's small investors still are not taking advantage of them, experts told The Meyers Report.

An IRA is one of the best tax shelters a person can have. "If an investor had religiously deposited \$2,000 a year into IRAs since 1962, when they were generally made available to all wage earners, he or she now would have more than \$12,000 saved for retirement," said David Phillips, of Laventhol & Horwath, a national CPA firm. "IRA money invested at a 10 percent annual return will double in seven years."

A portion of the account is a virtual gift from the Internal Revenue Service—contributions are tax deductible, and earnings accumulate tax free until withdrawal.

However, to get the most out of IRA, you have to invest wisely. IRA money can be invested in practically anything, except life insurance, gold, silver, gems and other collectibles.

Certified public accountant Edward Mendlowitz, partner with the New York-based firm of Siegel, Mendlowitz & Rich, recommends two broad categories of IRA in-

vestments—particularly certificates of deposit—and zero-coupon bonds.

"With these, you get a decent rate of return and run little or no risk that your investment will decline in value," Mendlowitz said. Many zeros are based on

drops in value, you cannot deduct capital losses as you could with investments held outside of an IRA.

Many banks offer high interest rates to lure new IRA customers. But, Mendlowitz warns, "They don't always give these high rates to hold

IRAs with their qualified pension plans. You might find it easier and more profitable to deposit your IRA with your company than to go to a bank each year. All the money will be in one place and could produce a greater return than if you spread it around in different banks. Some companies have very good investing histories.

**—CAREFULLY CONSIDER ROLL-OVERS.** Before using a roll-over IRA to receive payouts from company pension plans, be aware that in most cases you would lose your 10-year income averaging.

Generally, if you are going to need the pension money soon, you will also need the 10-year averaging. However, if you don't, the long-term benefits of a roll-over IRA may outweigh the loss of the 10-year income averaging.

Roll-over IRA accounts should be separate from any other IRA accounts that you have. "This is the only opportunity you will have to move the money into a new employer's plan," said Phillips. "It also is the only way to avoid getting stuck by the \$2,000 annual contribution limit."

**—HIRE YOUR SPOUSE.** Each year, you can contribute and deduct up to \$2,000 of your salary. If you're married and your spouse doesn't work, the limit is only \$250 more.

"If your spouse has been helping you out in your business, pay her/him a salary of at least \$2,000," Mendlowitz said. "She can

then put up to \$2,000 of her wages into an IRA of her own, making your total IRA deduction on a joint return \$4,000."

"But, weigh the payroll tax costs, they're expensive," said Phillips.

**—SELF-DIRECTED IRAS.** Most people choose banks or brokerage firms to act as trustee and direct their IRA accounts. But, in a self-directed account you can pick and move your own investments. This type of IRA only make sense if you want to invest in riskier, and hopefully higher yielding programs, like second mortgages, mortgage-backed securities, or venture capital, stocks and other investments.

Most brokerage houses and banks have IRS approved self-directed plans available.

There are other ways to get the most from your IRA account:

**—CONTRIBUTE EARLY.** Don't wait until April 15 to make your 1985 IRA contribution. The sooner you put your money in, the greater advantage you'll have of the tax-free compounding of IRA funds.

**—FILE EARLY.** If you have a hefty tax refund coming

next year, file by February 15 and claim the deduction for your IRA, you can use the refund to make the IRA contribution. But be careful that the IRA contribution is made by April 15.

**—BORROW TO INVEST.** If you're short of cash, consider borrowing the money to make your 1985 IRA contribution. The interest you pay on the loan is tax deductible if you itemize your deductions. And, the interest the money earned in the IRA is tax deferred.

**—IRA LOANS.** You can take a short-term loan from your IRA once each year. The withdrawal is tax-free and penalty-free, but the entire amount withdrawn must be reinvested, or "rolled over," into another IRA within 60 days. If you miss the 60-day deadline, you'll be subject to a 10 percent withdrawal penalty, plus you will pay ordinary income tax on the withdrawn amount.

**—BENEFICIARY CHANGE-S.** Check the beneficiary designation on your IRA from time to time. When personal circumstances change, you must remember to change your beneficiary, so the account won't end up in the wrong hands.

Treasury obligations. They sell at deep discounts, and you lock in the investment rate until the bonds mature at face value.

Some investment advisors say an IRA tied to such speculative capital gain property as stocks or real estate could bring a 20 percent return.

However, Mendlowitz said you could lose tax-favored long-term capital gain treatment when these assets are held in an IRA, because the appreciation is taxed as ordinary income (as opposed to capital gains) when withdrawn from the account.

Also, if the investment

customers whose IRA term deposits have come due and are automatically rolled over into new deposits."

"Once your money is on deposit at one bank, you are not locked into that bank forever. Shop for the best rates you can get," advises Phillips.

"To get the higher rate, open a new account. Or, ask the bank to match the rate it is offering new IRA depositors," he said.

Here are other investment suggestions to increase the yield on your IRA:

## Forecast: Inflation Low, Economy Stable

by GARY S. MEYERS  
AND ROBERT E. STEN-  
BECK

The big money investment houses look like surfers, riding the waves of stock market volatility.

Trading in stocks and bonds reached record levels as institutional buyers and

sellers (banks, pension funds, mutual funds, etc.) jumped into and out of the market, to get quick profits.

Market volatility has been feeding on itself and fulfilling its own prophecies. Based upon late and absurdly inaccurate (what else is new?) government

economic reports, investors are trying to guess which way the next winds of change will blow.

**THE FORECAST:** In short, the U.S. economy is stable and strong, and gradually getting better.

--Inflation for 1986 should stay at 2 percent or less, great news for the consumer and American manufacturers.

--The U.S. dollar should stabilize for the next six to nine months, leaving the U.S. in a good position to stimulate its own economy, generally without damaging foreign imports. Compared to the currencies of the major industrial nations, the dollar is now down by almost 25 percent from a year ago.

--The U.S. balance of foreign trade should markedly improve. Currently the country is in a deficit trade position as the U.S. imports more goods than it sells abroad.

--The stock market should continue to show strong volatility for the rest of 1986. Fifteen, 20 and 30 point daily fluctuations in the Dow Jones Industrial average, the best-known stock index, will become relatively common.

market, the greatest casino in the world.

--Further interest rate declines are coming. Declines in part will be based on inaccurate reports of a weaker U.S. economy. Look for our European trade partners and Japan to lower

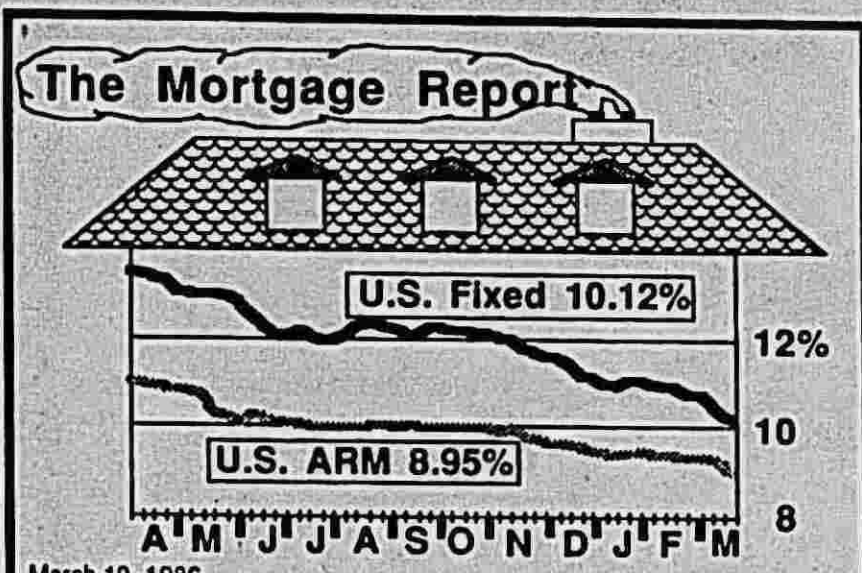

February increase (to 7.3 percent) will be revised.

**IN REVIEW:** During the past week yields on Treasury instruments have stabilized, instead of their typical March decline. The third week in March generally brings a flood of new money into the U.S. Treasury in the form of corporate and private income tax payments. The increased cash reduces the government's need to borrow and thus rates fall.

However, with the latest round in interest rate cuts came the greatest bond rally in U.S. history. Rate increases seen today are the result of institutions selling of their now super-profitable bond portfolios, a normal market adjustment.

Long and medium term Treasury instruments rose slightly. Only the 90- and 180-day Treasury bills showed a decline.

(c) 1986 Gary S. Meyers & Associates, Ltd. Chicago.

Nationwide, the average interest rate on 30-year fixed-rate mortgages continued to drop; now at 10.12 percent down from 10.54 percent. Adjustable mortgages fell to 8.95 percent from 9.31 percent last week. In Chicago, 30-year fixed-rate mortgages fell to 10.07 percent from 10.39 percent. Adjustable mortgages dropped to 8.67 percent from 8.86 percent.

# Top Spot On Ballot Provides Victory Key

by JOHN STEINKE

This year, Lake County voters will elect 12 out of the county board's 24 members. Most citizens are unaware of the county board's governmental responsibilities. Many people cannot identify the four representatives from their county board district. Yet, many uninformed voters will cast ballots for county board members in elections. The November election simplifies the voting process for people. They can determine their county board choices on the basis of party affiliation. You can either vote for the Republican or Democratic county board nominees.

But how do disinterested voters determine their county board preferences in a primary election where all the candidates share the same party affiliation? There are many voters, who are totally unaware of the candidates and issues in the county board races.

The March 18 Republican primary may furnish us with information on this matter. There were 26 GOP candidates competing for 12 nominations from six county board districts.

## Steinke On Politics

The primary results show three distinct voting patterns in the county board elections. First, seasoned politicians recognize that first ballot position is an enormous advantage in a low-visibility election. Uninformed voters tend to vote for the first name on the ballot. First ballot position guarantees a candidate 10-to-20 percent of the vote in a given

race. This pattern was reaffirmed when five out of six Republicans holding the first ballot position were victorious in the primary. The five winners were: Matt Milholic of Dist. 2, Jim LaBelle of Dist. 3, Norm Geary of Dist. 4, Mike Graham of Dist. 5, and Bruce Hansen of Dist. 6.

Lake County voters have a propensity to elect women to office. This tradition was also confirmed in the Republican county board contests. There were four districts where one female candidate was pitted against multiple male opponents. In all four races, the women aspirants were primary winners. They included incumbent Helen Belmont Amendola of Dist. 1, along with political newcomers Frances Burkich Vetrone of Dist. 2, Charlotte "Char" Kiesgan of Dist. 4, and Carol Calabresa of Dist. 5. None of these women occupied first ballot position. In a low-visibility

election where you have one woman competing in a multi-candidate field, the "hair-curler" aspirant will probably win.

Nor does incumbency help candidates in low-visibility contests. Most voters don't know the names of their county board representatives. Therefore, an incumbent can't capitalize on his record in office. This fact was dramatized in the March 18th primary. Four out of eight Republican county board incumbents were defeated for renomination, including Warren Twp. political Kingpin Bob Depke.

Secret Message: I want to congratulate Sheriff Robert H. "Mickey" Babcox on winning the Republican nomination for Lake County Clerk with the clandestine "support" of GOP Chairman Alger-I mean-Bob Neal. But, just one small reminder, "Mick." The Battle of Britain has just begun.

## 35 Students In Spelling Contest

Pam Short, as announced last week, an eighth grade student at Gavin South School, has won the sectional spelling contest for the third year in a row.

Short competed against 34 other students in grades four through eight at the contest held at the R.J. Forehand Theatre in Round Lake, March 11.

The second place honors go to Michelle Meller, a student at Wauconda Junior High. Meller will attend the Chicagoland contest in April with Short. She will compete only if Pam is unable to do so.

Other students participated include: Heather Rische, Lotus School No. 10, Antioch; Bernice Valentine, Emmons School No. 33, Antioch; Alexandra Katris, W.C. Petty No. 34, Antioch; Charlotte Berger, Oakland School No. 34, Antioch; Danny Yanca, Antioch Grade School, Antioch;

# Plans Brewing For Ft. Sheridan's 100th

Following an enthusiastic turnout of more than 100 volunteers at its first open meeting last month, the Fort Sheridan Centennial Commission has invited public officials, organizations and individuals from throughout the greater community to participate in planning the

year-long celebration of Fort Sheridan's 100th anniversary starting next November.

The Army post, an institution in Chicago's north shore suburban area, observes its centennial on Nov. 8, 1987, 100 years after two companies of troops arrived

to set up tents in the wooded acreage near the lake, adjacent to the villages of Highland Park and Highwood.

A task force headed by Charles Lucas, a 40-year civilian executive employee and an Army Reserve colonel, has been meeting

weekly for several months. It has outlined more than 150 different ideas for projects, programs, ceremonies, displays and other community-oriented activities.

Fort Sheridan Commander Colonel Stanley Thomas opened the session after a short concert by the Fourth Army Band, presentation of colors and pledge of allegiance. He encouraged everyone to join in the "fun and excitement" involved in shaping some of the centennial projects for the community at large. Thomas introduced a multi-screen sound-slide film giving an historic perspective of the post.

Lucas and Army Major Rick Dorer then outlined the progress already made by the volunteer task force. They encouraged attendees to enlist the imagination and talents of others in fulfilling existing plans and exploring new projects to raise funds and commemorate the Fort Sheridan contributions to national defense and the local community.

At the meeting's conclusion, a pledge to donate proceeds from one concert was made by Ms. Georgia Cobb, founder and conductor of the Chain O'Lakes Symphony Orchestra, and a sub-

stantial cash donation was pledged on behalf of Post 25, Legion of Polish-American Veterans, by its commander, Robert Miller.

Lucas and Dorer invited public participation in planning and financing Fort Sheridan Centennial Festivities. Interested individuals and groups can contact the centennial commission by calling (312) 926-3100/3133 or writing Centennial Office (AFZO-100) Bldg. 205, Fort Sheridan, IL 60037-5000.

Fort Sheridan, now a National Historic Landmark, occupies 695 acres along the Lake Michigan shoreline, 28 miles north of downtown Chicago. It was established as "the camp at Highwood" on donated land at the urging of the Commerce Club of Chicago by Army Chief of Staff and Civil War hero, Lt. Gen. Philip H. Sheridan. After three months, it was redesignated as Fort Sheridan.

The installation has served as a cavalry, infantry and artillery center, and was a training camp for the ROTC. It housed a 5,000-bed military hospital on the parade ground during World War I, and in World War II, more than 500,000 midwestern citizen-soldiers

were processed into service there. In more recent times, the post has served as Fifth Army Headquarters.

Currently, Fort Sheridan is administrative, logistical and maintenance headquarters for all active Army and Reserve facilities, equipment, units and personnel in the upper midwest.

Among its many tenant units, Fort Sheridan houses the U.S. Army Recruiting Command and two subordinate headquarters, and headquarters for the Fourth U.S. Army, responsible for training, readiness and mobilization for 131,000 Army Reserve and National Guard personnel in seven midwestern states.

The post also provides administrative support for the Military Entrance Processing Command, the defense department agency which maintains 68 centers in major cities to test, evaluate and inprocess enlistees for all branches of military service.

A total of 1400 active duty soldiers are based at Fort Sheridan, along with a civilian work force of 1750 administrative, clerical and technical specialists.

## To Start Honors Program Next Fall

The College of Lake County Board of Trustees has voted to approve the school's first honors program.

"This exciting program has two phases. Students of high academic achievement may be admitted to a whole program as honors fellows or admission may be to individual honors courses," according to Board Chairperson Millicent Berliant, of Deerfield. "It's part of the college plan to attract high caliber students and serve a larger segment of our population," she added.

Fifty renewable tuition scholarships are planned for the fall semester 1986, according to Doug Sherman, honors program director. "The program is designed as a foundation in things that make people successful," Sherman said.

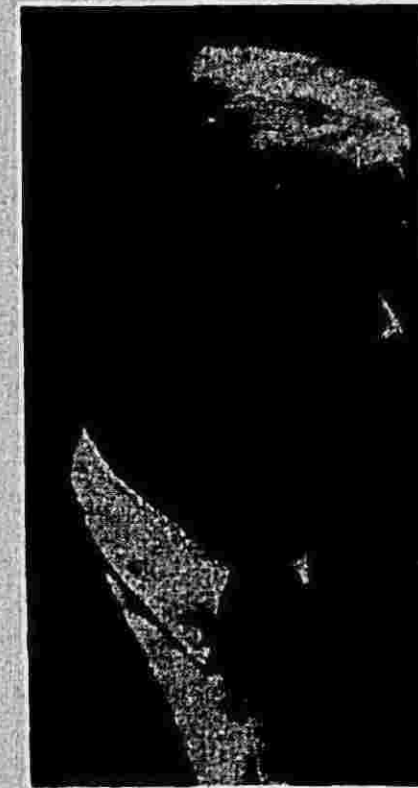

Components of the program include critical thinking, writing and demonstration of interrelationships

between academic disciplines. The program was developed by a faculty committee and goes beyond the traditional honors program in its more comprehensive scope, Sherman indicated.

CLC President John Hunter commented on the purpose of the new honors program, "I think what we are saying with the announcement of the honors program is that CLC will compete with any college or university anywhere in offering undergraduate education of exceptional quality. We know that we have the facilities, technology and most of all, the teaching faculty to provide excellence in this program."

CLC currently enrolls more Illinois State Merit Scholars than any other community college in the state and is presently

moving into the second year of a high school merit scholarship program sponsored by the board of trustees.

On Thursday evening, April 10, 1986, at 8:00 P.M., a public hearing will be held by the resident and Board of trustees of the Village of Lindenhurst in the Lindenhurst Village Hall, 2301 Lake Road, Lindenhurst, Illinois, for the purpose of considering the terms of four proposed annexation agreements, and taking testimony relating hereto. The properties which are the subject of the annexation agreements are as follows:

A. "Richard E. Dittmer East Parcel", consisting of two tracts which taken as a whole consists of approximately 51 acres, legally described as:

1. The East one-third of the East half of the South East quarter of Section 34, Township 46 North, Range 10, East of the 3rd P.M., (excepting the West 40 feet thereof), in Lake County, Illinois.

2. The West one-third of the West half of the South West quarter of Section 35, Township 46 North, Range 10, East of the 3rd P.M. in Lake County, Illinois.

which property is located on the North side of Illinois Route 132 adjacent to the Western border of the Village of Lindenhurst. This property is sought to be annexed to the Village of Lindenhurst and be developed for uses authorized in the B-Business District Limited Retail, R-2 Multiple Family Restricted Dwelling District and R-3 Multiple Family Dwelling District, of the Lindenhurst Zoning Ordinance.

B. "YMCA of Metropolitan Chicago Parcel" is a tract of land 40 feet wide legally described as:

The West 40 feet of the East on third of the East half of the South East Quarter of Section 34, Township 46 North, Range 10 East of the 3rd P.M., in Lake County, Illinois.

which property is located Westerly and adjacent to the property described in paragraph A above. This property is sought to be annexed to the Village of Lindenhurst and be used as a private access road to YMCA properties.

C. "Richard E. Dittmer West Parcel", which consists of 43 acres, legally described as;

The North 1/4 of the South East 1/4 and the South East 1/4 of the South East 1/4 of Section 34, Township 46 North, Range 10 East of the 3rd P.M. (except the East 1/2 of the East 1/2 of the South East 1/4 of said Section 34, and except W. H. TO: ALL INTERESTED PARTIES  
Please take notice, that William Falster and James Segin has filed a petition before the Chairman and members of the Zoning Board of the Village of Fox Lake, Illinois, praying for a Rezoning, to the Zoning

Ordinance of the following described real estate:

That part of the South East Quarter of Section 4, Township 45 North, Range 9 East of the Third Principal Meridian, in Lake County, Ill., described as follows: Commencing at a point 409.18 feet north of the north east corner of the south east quarter of the South East quarter of section 4; thence north on the east line of said south east quarter, 100 feet; thence west at right angles, 84.3 feet more or less, to the shore of Nippersink Lake; thence southerly along the shore of Nippersink Lake to a point due west of the place of beginning, and thence east to the place of beginning in Lake County, Ill., Excepting therefrom that part of the above described property conveyed by Deed recorded August 1, 1969, as Document 1430991. More commonly known as 127 Arthur Avenue, Fox Lake, Ill., 60020.

That said premises are now classified as a R-2 District, and under the prayer of said Petition, petitioner seeks to rezone said property from a R-2 District to a R-3 District.

That a hearing on said Petition has been scheduled for 7:30 p.m., Zoning Room, Village Hall, 301 South Route 59, Village of Fox Lake, on the 16th day of April, 1986, at which time the Petition together with all other testimony and objections will be heard.

## Having energy-wasting windows can be taxing

Most everyone complains about the taxes they pay these days, but did you know that homeowners used to be taxed for the windows they had?

Indeed, Charles Dickens wrote in *The Pickwick Papers* that "The windows were looked out of often enough to justify the imposition of an additional duty upon them." The government believed that anyone who could afford the costly glass of that time could certainly pay some extra taxes.

Fortunately, we no longer have to pay Uncle Sam for the windows in our homes. In a way, though, those with old or ill-fitting windows are still being taxed — but this time the money is going to the utility company in the form of higher heating and air conditioning bills.

Most homes in America were built when energy was cheap, so window manufacturers weren't concerned with energy-efficiency. Now many of the companies that are successful selling their products to consumers are making energy-efficiency a top priority when they design their products.

According to Kurt Winner, president of the company that makes Vinylite windows, "Consumers are very receptive to replacing their windows when they realize how much money they can save — and how much more comfortable they can be with an energy-efficient window."

They're also concerned with buying windows that are well-designed and long-lasting and that won't require a lot of maintenance."

There are a number of steps homeowners can take to determine whether their windows are candidates for replacement. Vinylite offers the following suggestions:

- When it's windy outside, take a lighted candle and move it around the edge of the window frame. If it flickers, your window is leaking air.

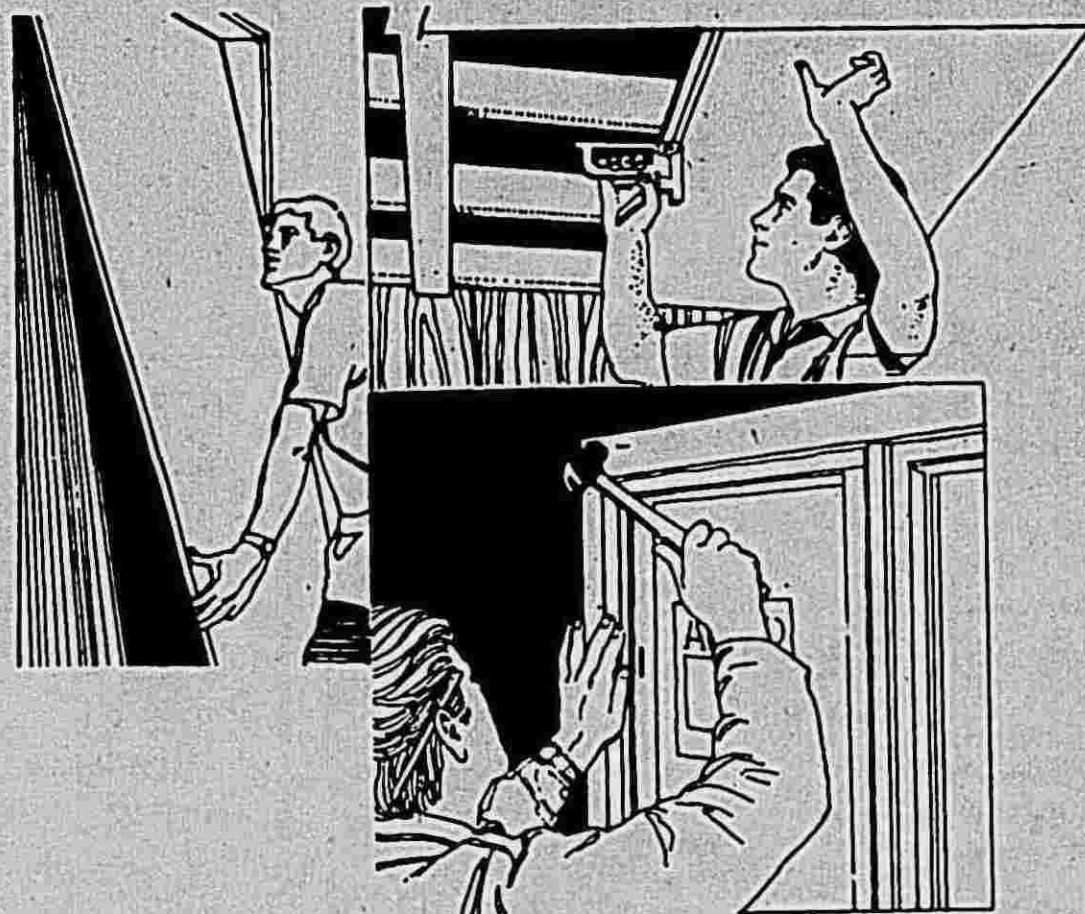

- Examine your wood-framed windows for signs of warping, rotting or flaking putty. Any of these means trouble.

- Check your aluminum or steel-framed window for any signs of corrosion. Also, touch the frame in cold weather to see if it feels cool. If it does, it means that the window is not acting as an efficient insulator.

- If your windows have excessive condensation on cold days, or even frost on the inside, it's an indication that they're not doing a good insulating job.

- No matter what the climate, if the window has only a single pane of glass, it will drive up heating and air conditioning costs.

## Solar screens make home more comfortable

Summer's hot days are not far away, and with the summer sun will come those high utility bills associated with air conditioning. The secret in controlling the summer sun is to keep the heat and glare from striking and entering your windows.

One simple solution that is helping millions of homeowners from coast to coast is SunScreen® solar screening, the product selected for use on The Energy Saving House at both The 1982 and The 1984 World's Fairs. SunScreen solar screening is a replacement for your regular insect screens, but with one important improvement. Solar screens not only keep out the bugs, they stop most of the sun's heat and glare as well. In fact, these screens stop up to 70 percent of the sun's heat and glare from reaching your windows and entering your home.

There are lots of additional benefits to having SunScreen solar screens too...for example, improved daytime privacy. Homeowners report they can leave the shades up or the drapes open and still enjoy their privacy with SunScreen solar screens installed. The unique weave of the screens affords good outward visibili-

ty too. Since most of the sun's ultra-violet rays are stopped, fading of carpets, drapes and furnishings, is also greatly reduced when SunScreen solar screens are installed.

Unlike films or other types of sun control products, the solar screens work with the windows open or closed, a nice feature during those times of the year when you want windows open for ventilation. Gentle breezes enter through the open mesh. Plus, SunScreen solar screens make interiors more comfortable by reducing glare from water, pavement, adjacent buildings or other shiny objects.

Exterior shading, such as solar screening, has been proven effective for years in such hot climates as Arizona, California and Texas. In those climates, shading is almost a must for east, west and south-facing windows. In fact, many state and local building ordinances in California now require some type of shading on all new home construction. SunScreen solar screens are recommended and endorsed by many utility companies in those areas.

Woven of long-lasting fiberglass yarn, SunScreen solar screening is available in a choice of several col-

ors to blend with any building exterior.

If your home has storm windows, you may have already discovered that they do very little to protect you from

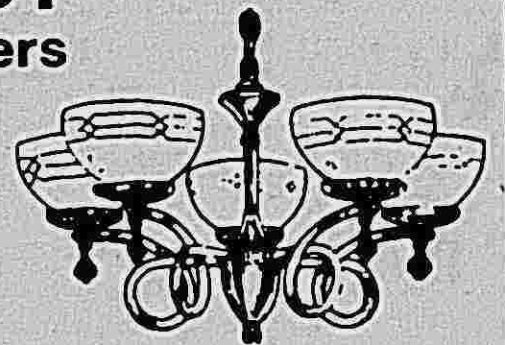

the sun's summer heat. Tests have shown that the solar screens will improve the thermal performance of storm windows in winter as well as offering summertime shading.

## Beware of eyethurls that rob home of energy

When the Old English wanted a breath of fresh air, they'd simply ask someone to open the *eyethurl*. Eventually the term for an opening in a wall became *windore* — a door for the wind — and then, finally, *window*.

Windows, in one form or another, have been around as long as civilization itself. In many cultures, they have symbolic meanings. When Pope John XXIII wanted to dramatize the spirit of the church, he walked across the room and opened the window. The Chinese have various kinds of latticework on their windows to denote different meanings. Some are religious symbols, others indicate the social standing of the homeowner.

Today, too, windows are symbols. An office with a large window and a view is a status symbol. A home with attractive, well-placed windows is bright and psychologically uplifting to its inhabitants.

These days, however, we need to be concerned not just with the aesthetic appeal of windows, but with their ability to save energy. According to experts, windows can be the single biggest source of energy loss in a home. "As much as 30 percent of a home's heat can be lost through old, single-paned or ill-fitting windows," according to Juliette Lang Cahn, director of the Vinyl Window and Door Institute. "Now that heating and air conditioning costs are so high, energy-efficiency has become a major concern."

Window manufacturers first responded to Americans' desire for energy-efficiency by making their windows with double or triple-paned insulated glass. More and more, too, they have turned to a new technology in window framing materials — chambered rigid vinyl frames. Vinyl-framed windows with insulated glass have excellent thermal characteristics, resist condensation and conduct virtually no heat or cold.

Unlike other framing materials, vinyl should never require painting and will not warp, corrode, rust or rot. Thus, vinyl-framed windows are not only energy-efficient, but they are also durable and virtually maintenance-free.

According to Cahn, all-vinyl windows are the most popular type being installed in Europe today and are the fastest growing type in the United States. They are competitively-priced with other kinds of windows and come in virtually any style or size desired — from traditional casement and double-hung styles to elegant bays and bows.

Most qualified window dealers and contractors can help homeowners choose the window styles and sizes that are suitable for their homes. They can also advise where to place the windows to provide the maximum benefits in terms of energy, lighting and ventilation.

The Vinyl Window and Door Institute offers the following tips:

- Locate the windows where they can take advantage of prevailing

breezes and the sun's light and heat. If possible, place them in opposite walls to take advantage of cross ventilation.

- Choose a few large windows instead of several small ones for optimum light. Otherwise, group the small windows together for uniform light distribution. Short, wide windows provide broad and shallow light. Tall, narrow units provide deep light penetration.

- In cold climates, place the largest windows toward the south to benefit from solar heat gain in the winter. In warm climates, most of the window area should face north to lessen the burden on artificial air conditioning. Shade the home with deciduous trees and awnings to reduce energy costs in all climates.

## New hardware flooring makes installation easy

The rising cost of buying a new home has boosted the popularity of money-saving, do-it-yourself remodeling and decorating projects. Painting, wall-papering and paneling are common weekend activities for homeowners who want to improve their homes without the costs of a professional installation.

Most, however, have never tackled the job of installing hardwood flooring. Now, a new do-it-yourself flooring is available which provides the elegance and beauty of pre-finished hardwood flooring at a cost comparable to the installation of vinyl flooring or moderately priced carpeting, and can be installed without nails or adhesives.

Called Longstrip, the new product is manufactured by Harris-Tarkett and can be easily installed over any existing subfloor, including concrete, rubber, vinyl, wood and even tightly woven carpet. The Longstrip floor

"floats" on top of the existing floor, expanding and contracting within a half-inch space around the perimeter of the room.

Longstrip's unique lamination process contributes to its fast and easy installation. A 1/4-inch thick top layer of hardwood is glued to a core layer of cross-banded pine strips which are then bonded to a pine veneer backing. This process enables the wood to lie flat and resist normal shrinking and swelling after installation. If the subfloor is in direct contact with the ground, such as on-grade concrete, in addition to the recommended 1/4-inch

Volara foam pad, a 6-mil polyethylene film vapor barrier will insure a quiet, comfortable room with added insulation.

Longstrip is available in 8-foot long by 6-inch wide planks which fit together in a patented tongue-and-groove assembly.

**T**hanks to you, Libertyville Federal financed the largest volume of mortgage loans in our 59 year history during 1985 — more than double the volume in 1984.

Why are more people than ever before turning to Libertyville Federal for their mortgage financing?

To begin with, we offer some of the most competitive interest rates on fixed or adjustable rate mortgages of 15 or 30 years. Price and compare!

Secondly, we offer a complete selection of home financing options—from new homes to second mortgages to total refinancing for lower monthly payments. Our relocation financing services enable transferred executives to establish credit quickly and easily. FHA and VA mortgages are also available.

Thirdly, by opening our Crystal Lake (McHenry) and Itasca (DuPage) offices, we've opened new channels in home financing for residents in those areas. Those offices, together with our Libertyville and Gurnee locations, have contributed significantly to our growth.

Your trust and confidence in Libertyville Federal has made 1985 our most successful year ever. Thanks for the opportunity to serve your lending needs.

## Shed light on attic room

One way to transform a little-used attic into an extra room with good ventilation and lots of daylight is to install one or more roof windows. When installed in a south-facing roof, these units can serve as passive solar collectors and provide the attic with a supplementary source of heat.

Newly developed by Andersen Corporation of Bayport, Minn., roof windows are glazed with high-performance insulating glass which is even better than triple glazing in saving energy. High-performance insulating glass has a micro-thin metallic coating bonded to the airspace surface of the inside pane. This means there is nothing to install, operate or clean and the coating won't peel, crack, wrinkle

or discolor.

Available in six popular sizes, Andersen roof windows are designed to work with typical truss and rafter spacing to assure fast and easy installation. The roof windows also have four operating positions for security, ventilation and cleaning.

One of the positions enables the roof windows to be tilted so the sash can be secured for washing from indoors. Venetian blinds or reflector shades are available as options.

For more information on the complete line of Andersen windows and gliding patio doors, write the Andersen Corporation, Bayport, Minn. 55003.

# Answers to most asked questions

Although some 10 years have passed since the oil embargo shocked the nation into taking drastic measures to conserve energy, today's wise homeowner is still investigating ways to make the family home even more energy efficient.

Energy costs continue to rise on a yearly basis, and experts at the CertainTeed Institute suggest that additional insulation is still one of the homeowner's best weapons for fighting rising monthly energy bills.

While most attics and garages can be insulated by a do-it-yourselfer in one afternoon, maximum energy savings are obtained by insulating an entire house. To properly insulate inaccessible areas such as side walls, a professional home insulation contractor should be consulted. The CertainTeed Home Institute has found that many homeowners are concerned about how to select an insulation contractor. In response to this, the Home Institute has compiled a list of questions most commonly asked by homeowners and provided the following answers:

## What exactly is an insulation contractor?

An insulation contractor is a professional who is specially trained to properly install insulation, to determine where to add insulation and to advise how much insulation is required to give the best return on an investment in energy conservation.

## How do I locate an insulation contractor?

Looking in the Yellow Pages under "Insulation Contractors" or "Insulation Materials" is a good place to begin. Contacting a local contractor's

association or asking your friends or neighbors who have had their homes insulated is also a good step.

## Once I've identified local insulation contractors, how do I know who's responsible?

Any qualified insulation contractor will provide credentials, references, written estimates and high quality products.

## How do I check an insulation contractors credentials?

Start by contacting the Better Business Bureau. They'll tell of any complaints against a particular contractor. Local contractor associations can also be of assistance in this area. They can tell you if the individual is a member in good standing.

Most important, ask the contractor for references. If he's well established in the community, he should have a list of satisfied customers that he would feel confident to have you contact. Talk with some of the people on the list to get their opinions of the contractor's professionalism.

## Should I obtain firm estimates before hiring an insulation contractor?

Yes, by all means do. Take firm estimates in writing of the work that is to be done from several insulation contractors before selecting one. Also, get the types of the materials to be used by brand name and product description in writing as well.

The easiest way to avoid disappointment and misunderstanding is to have everything spelled out clearly before the job begins.

## How do I compare which estimates are the best?

To properly compare them, make sure that the estimates you ask for are for comparable jobs, using the same materials, quality of workmanship and R-value.

Thickness alone is not the best measurement of insulation value, R-value is. The R-value is the measure of an insulating material's resistance to heat flow. The higher the R-value, the greater the insulating power.

## How do I know which materials a insulation contractor suggests are the best ones for my home?

Fiber glass is the most popular kind of home insulation and is available in rolls, batts and blown-in forms. It's an extremely effective insulating material because it contains millions of tiny air pockets that resist the flow of heat.

One product that more and more contractors are recommending is Insul-Safe® II, the fiber glass blown-in insulation from CertainTeed. Quality tested and manufactured to demanding standards, Insul-Safe II offers superior thermal performance. In addition, it is non-combustible, will not absorb moisture and will not rot or decay. Plus it is not treated with chemicals that can cause noxious odors or corrosive effects on pipes and wiring. It was the first insulation of its kind to be certified by the National Association of Home Building Research Foundation under its labeling program.

# Insulation should provide ventilation

With energy costs expected to soar unabated for the next 10 years, wise homeowners across the country are busily tightening up their homes by plugging leaks, adding storm windows and doors and installing increased amounts of insulation. In their efforts to save money and keep their dwellings cooler in the summer and warmer in the winter, however, many homeowners are concerned about creating overly "air-tight" homes. By sealing a home too tightly, water vapor from such everyday activities as cooking, cleaning, bathing and laundry might not be able to disperse to the outside. Instead, it could collect in the attic or walls, soak the insulation and decrease its effectiveness. Water vapor can also soak into the internal structure of a home and create musty smells, stained ceilings, crumbling plaster and peeling paint.

Energy conservation experts at the CertainTeed Home Institute say the remedy is simple. Sufficient ventilation and proper installation of vapor barriers will prevent the collection of too much water vapor. Vapor barriers retard the flow of moisture from the inside air through walls. They can be purchased already attached to the insulation as in the case of CertainTeed's foil or kraft-faced fiber glass insulation, or can be bought separately as in the case of polyethylene sheeting.

For more information about insulation, write for the free brochure: "Insulation Facts," CertainTeed Home Institute, P.O. Box 860, Valley Forge, PA 19482.†

## Enlist help of contractor when replacing windows

At first glance, the replacement of an old window may seem like an easy Sunday afternoon do-it-yourself project. But the mechanics of removing the window, accurately measuring the opening, and installing and sealing the new unit may prove far more intricate and challenging than anticipated.

Then, there's the matter of selecting a window system that will offer the best return on investment with respect to energy savings and maintenance. CertainTeed Corporation, a leading manufacturer of solid vinyl replacement windows, suggests that the task of selecting and installing the ideal replacement window system be left to a professional window contractor.

"The window contractor is specially trained to determine when windows need to be replaced and the type of system that will provide maximum energy efficiency," says Mack McDermott, vice president of marketing for vinyl windows at CertainTeed.

"He's also in the best position to help you select the best style and system for each opening. Replacement windows come in as many styles as prime windows: double-hung, glider, picture, casement, bay and bow.

Names of reliable window contractors are available from many sources including the Yellow Pages, local contractor associations or friends and neighbors who have had windows installed recently.

But before a contractor is selected, the homeowner should carefully check his credentials and references and obtain written estimates. A con-

tractor's credentials can be easily verified by contacting the Better Business Bureau or local contractor associations.

A contractor should be able to furnish references upon request. If he's well established in the community, he should have a list of satisfied customers willing to endorse his work. By talking to some of these people, a homeowner should be able to obtain a fairly accurate assessment of the quality of the contractor's work and equally important, the quality of the products he uses.

The window should also be backed by a manufacturer with a solid reputation for quality products. CertainTeed windows, for example, have earned the Good Housekeeping Seal, the most trusted symbol of consumer protection.

Written estimates should always be requested in advance, McDermott cautions, to avoid any misunderstanding regarding the scope of the assignment or the materials to be used.

When obtaining more than one estimate, it is imperative that all contractors quote on comparable window systems. It stands to reason that a triple-glazed window will cost more than a single- or double-pane unit, and that a bay, bow or picture window will require more labor to install than a standard double-hung system.

For more information about the many different styles of replacement windows available and the system that's best suited to your needs, write to CertainTeed Corporation, Vinyl Building Products Division, P.O. Box 860, Valley Forge, PA 19482.†

### Total Loss

This is all that remains of a home at 43332 Park Ln. in Antioch after it was completely destroyed by an early morning fire on March 24. Wayne Parthun of the Antioch Fire Dept. said that the fire's point of origin suggests that it was caused by electric base board heating.

## ACHS Board Works On 'Students At Risk'

At the last regular meeting of the Antioch Community High School (ACHS) Board of Education on March 20, Supt. Gary Allen reported on several of the mandates contained in Senate Bill 730 which was part of the educational reform package passed by the Illinois General Assembly this past summer.

School reorganization, which has been a subject of great concern, now apparently is a dead issue due to recent legislative changes which remove the requirement for school districts to reorganize.

The high school in conjunction with the truants alternative program, is developing a program to assist "at risk" students in achieving greater success in all academic areas.

In addition there will be a summer school program developed for both the "at risk" and the academically talented students, funded by money provided in one of the com-

ponents of Senate Bill 730.

Allen also reported that the newly established residential math/science academy located near Aurora is seeking students for the 1986-87 school year.

The board selected Millburn Cain and Co. to perform the annual audit for the 1985-86 school year.

Ken Wierschem, business manager at ACHS was reappointed as the school treasurer.

In other business, the Board approved the renewal of membership in the Illinois High School Assn. which governs interscholastic activities.

Pete Pekkarinen, director of pupil personnel, reported that a record number of students are participating in the ACT prep course which is offered to students to improve their ACT scores. Pekkarinen also reported the enrollment projection for the 1986-87 school year appears to be up approximately 25 students.

# Fair Draws Consumers

Hundreds of visitors to the State Bank of Antioch's Home Improvement Fair on March 21 and 22, found streamlined exhibits, plenty of information on home improvement products and new construction, and ways to effectively finance projects. Twenty-five local contractors and home professionals were on hand to answer questions and discuss plans.

"Our fair has become a familiar event and the weather was definitely a

positive factor that brought many consumers into the bank both days," observed bank vice president and fair coordinator, Wally Jaskowski. "We continue to be pleased with attendance, and our experience shows that many visitors will contact us later regarding their plans and financing to match," Jaskowski added.

The top three door prize winners in the fair drawing were: William Birchard, Antioch, first prize of \$1,000; Tom Pientka, Antioch,

second prize of \$500; and Sam Art, Fox Lake, third prize of \$200.

Top prizes will be paid out by the State Bank of Antioch on any home improvement project undertaken by each winner.

Winners of the random drawing for tools were the following: Frank Allbritton, Antioch, 3/8 inch Sears drill; C. Miller, Antioch, handsaw; Sandra Bertini, Lindenhurst, level; Mitch Schultz, Lindenhurst, First Alert; Elaine Pachol, Trevor, Sears bench

vise; GERALYN Willding, Antioch, Stanley mitre box; Robert Depke, Grayslake, hammer; Jay Magnuson, Antioch, workbench; and Bernie Gutowski, Antioch, circular saw.

Also, Rosemary Ferguson, Antioch, six-foot ladder; Ed Ebey, Fox Lake, kitchen fire extinguisher; Bev Kull, Antioch, five-piece screw driver set; Jack Perry, Antioch, storage organizer; Betty Jorgensen, Antioch, hacksaw; Vilma Schindel, Bristol, hammer; James Piper, Twin Lakes, level; Jan Opitz, Gurnee, Toro trimmer; Florence Tomlinson, Chicago, tool box; Bernice Savage, Lake Villa, jigsaw; and Ken Wintergerst, Buffalo Grove, six-foot ladder.

Bank management has scheduled its first planning session for the 1987 fair and, according to Florence Babusek, bank marketing director, "next year's fair is our biggest challenge yet, allowing for the fact that our second-story space will be fully occupied by April 1 by our growing trust department, mortgage lending personnel and Bankers Insurance Agency, Inc., our new insurance service available for both personal and commercial customers.

## Hendle Wins

George H. Hendle was the big winner while the McHenry County College referendum was the big loser in the March 18 elections in McHenry County.

Hendle, with 8343 votes, won the Republican primary race for sheriff ahead of Matt Schalz who had 4476 votes, Joseph G. Policky, who had 3630 votes, and Bill Hecht who had 1886 votes.

Four candidates from district four were elected for county board seats with no opposition. They were Donald P. Doherty with 3725 votes, Charles Weingart with 3723 votes, Richard Meyers with 3415 votes, and Robert Gobin, with 3235.

## Pet Of The Week

Six-month-old Buttercup is this week's pet. She is with owner, Nicole Gentile and her six-year-old brother Jimmy. Nicole says "Buttercup is a very nice and playful kitten. She likes to follow us all over the house. She takes turns sleeping with each of us." Nicole says Buttercup has her own toys, "but likes playing with Jimmy's little army men the best." Nicole is five years old and will compete in the "Little Miss Fox Lake" Pageant, to be held April 3 and 4 at Holiday Park. —Photo by Jody Lewand.

**HOUSE HUNTING?** Find just the home you're looking for in Lakeland Newspapers' Classified.

**TAURUS** (Apr. 20-May 20) Ambition is favored. What you strive for you arrive at. Watch your energy levels. Balance bursts of activity with periods of relaxation.

**GEMINI** (May 21-June 20) A chance meeting with an old friend could reactivate a dormant relationship. Stay in control. Let things happen slowly to avoid an emotional eruption.

**CANCER** (June 21-July 22) Spend more time and attention on the object of your affections and your emotional investments start paying off in high returns and increasing interest.

**LEO** (Jul. 23-Aug. 22) Smart Cats see the emotional dumps as a gold mine filled with nuggets of worthy lessons for living. Take some with you as you tunnel out.

**VIRGO** (Aug. 23-Sept. 22) New experiences dominate this period. Expect to have to discard some long-held opinions to take advantage of new offers. An important person re-evaluates his/her feelings.

**LIBRA** (Sept. 23-Oct. 22) An important relationship seems to be changing. Be prepared to face situations that could cause you to reassess your feelings. Keep an open mind.

**SCORPIO** (Oct. 23-Nov. 21) You're surrounded by hurt feelings everywhere. Apply warm words to thaw out both a domestic freeze and icy on-the-job attitudes.

**SAGITTARIUS** (Nov. 22-Dec. 21) Career changes are in the offing. Don't be put off by offers that seem too good to be true. Don't you deserve such well-earned consideration?

**CAPRICORN** (Dec. 22-Jan. 19) A perplexing situation develops. Ask questions. Don't be left wondering or you may be left wandering behind everyone else.

**AQUARIUS** (Jan. 20-Feb. 18) A friend's trust must be earned. Although you are eager to give, be sure your gifts are eagerly received. Guide your generous heart carefully.

**PISCES** (Feb. 19-March 20) The Fish is in a learning period. Use the current period of confusion as a school in which important lessons about human emotions are being taught.

### Announce Blood Drive

Sequoit Lodge No. 827, A.F. and A.M. announced today that the lodge would conduct its annual blood drive on Sunday, April 20. The drive will be coordinated with the United Blood Services, a non-profit organization founded in 1943 which supplies blood to area hospitals. On a national basis the organization supplies over one million transfusion units per year to over 800 hospitals in 20 states. From left are; Chuck Grossenbacher, Janice Pagurko of United Blood Services, and Robert Koester, Sequoit Lodge Blood Drive Chairman.

### Award Lodge For Blood Drive

The United Blood Services has presented an award to the members of Sequoit Lodge No. 827, A.F. and A.M., Antioch, for the Lodge's outstanding effort and results in its 1985 blood drive. The award cites Sequoit Lodge for 'outstanding community services in providing the gift of life.' Shown accepting the award from representatives of United Blood Services is Robert McDonald, W.M., (center), of Sequoit Lodge. The lodge's 1986 blood drive will be held on Sunday, April 20. Also present are Chuck Grossenbacher, (left), and Janice Pagurko.

*"One out of five families  
is repaying a personal loan...  
most are paying too much."*

*Lou Rosin, Vice President of SkoFed Credit, believes in a personal approach to lending.*

"That's a strong statement, but true. Most large, impersonal finance companies are charging rates which are considerably higher than you can get locally at Sko-Fed Credit. That difference could mean thousands of extra dollars in your pocket. When it comes to family expenses, every penny counts.

"Sko-Fed is in the business of helping families when they need extra money to cover home improvements, college costs, debt consolidations, or investment opportunities. Our personal loans are available in amounts of \$1,200 to \$50,000 based on collateral or the equity in your home. In most cases your loan can be approved in as little as 24 to 48 hours. And you'll appreciate our rates...they're among the lowest you'll find anywhere.

"Helping people with lower-cost loans is our job and we like to make our personal loans as personal as possible. All of us at Sko-Fed Credit get to know our customers and are concerned about their well-being."

You can call Lou or Diana Rosin at 674-9696 in Skokie or Jim Jensen at 233-7900 in Round Lake Beach.
